

## An Introduction to Holly's Phonics

We have worked with an experienced educational specialist to create a beautiful phonics game that children can enjoy and which, at the same time, reinforces phonics learning as well as encourages segmenting and blending.

Holly's Phonics is based upon the Letters and Sounds phonics scheme, which is widely used across schools. It would be suitable for children who may not have passed the Phonics Check in Year One or those who are struggling with phonics in Year Two. The words have been carefully chosen to align with L&S Phase Two and this set has tiles for every single GPC in this Phase. Whether you're teaching L&S, Jolly Phonics or Read Write Inc., Holly's Phonics will reinforce phonics learning and the application to reading.

## How to Play

This beautiful set of wooden tiles has either a word or a picture on one side. The aim is to match the picture tiles with the words tiles. The dots and dashes ('sound buttons') under each word help children to segment the words into sounds so they can blend the sounds to read the word. If the bars on the front of the word tile line up with the bars on the front of the picture tile, it's a match! Encourage children to sound out the word on the tile before matching the bars.

## Other Game Ideas

### Memory Game

Turn all the tiles face-down and try to match the word with the corresponding picture.

### Sorting

Group word tiles with the same phonics sounds – how many combinations can you find?

## Care Instructions

- Wipe clean with a damp cloth.
- Please keep leaflet for future reference.
- Suitable from +12 months.
