A3

Paper size (420mm x 297mm)

100MM

1. Please ensure the print is to scale once printed out by measuring the 100mm scale line above. 2. Position the badge on the print to ensure the badge brackets align with the drawing (see white circles, **not black circles**)
3. Cut out along marked lines. 4. Position print on grill and lightly press on the paper to align and ensure the honeycomb pattern aligns with each other. 4. Tape the paper onto the grille to secure in position.
5. Drill a pilot hole on die marked black dots. 6. Remove paper and drill holes bigger in steps up to 14mm. 7. Slide badge arms through the holes and secure from behind with supplied screws and brackets.

Please note that this is a guide to assist and own discretion is needed.
