# FOLDING PICK-UP CAMPER

Presenting Coleman's new folding pick-up camper for when you want to be at home on the road. Closed, its lightweight low profile fits comfortably in almost any half-ton pick-up. Quickly and easily opened, it affords plenty of leg room, a high-standing 6'3" of head room, and elbow room to dine in comfort. Two twin-size wing

beds provide enough space for four adults to get a good night's sleep. Twice the space of most rigid-walled campers, Coleman's new folding pick-up camper gives you room to spare.

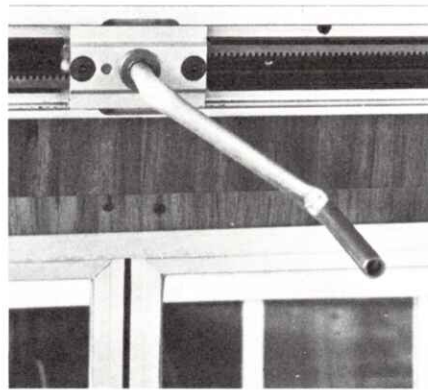

And everywhere you look, you see the quality craftsmanship that comes with the Coleman name.

*the camper's camper*

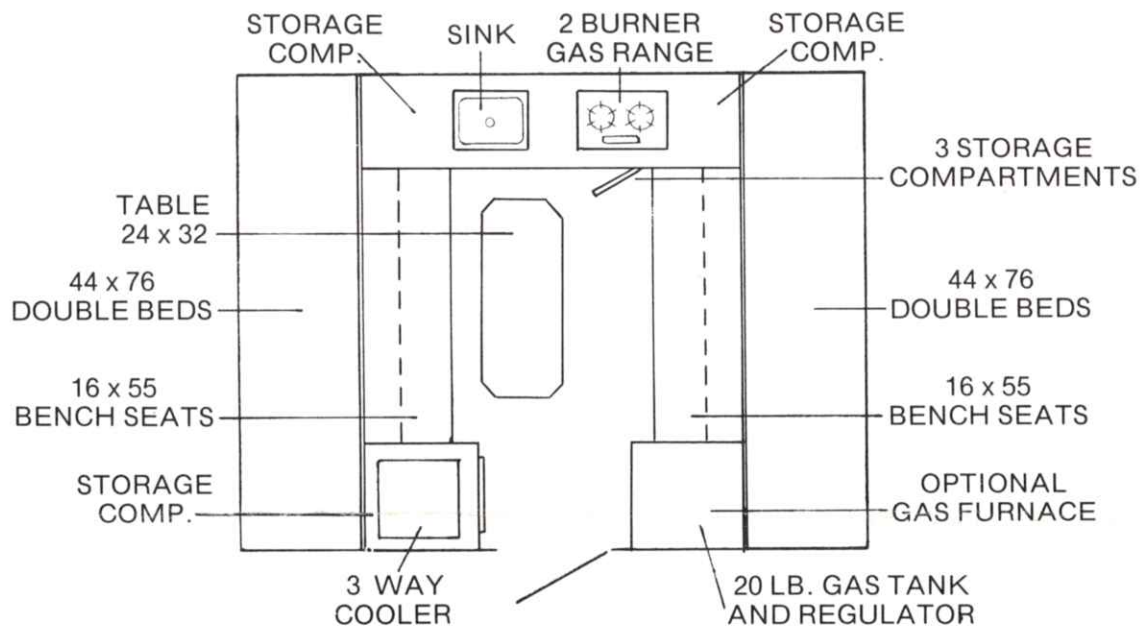

Closed low profile design—offers minimal wind resistance. Rugged steel frame and complete insulation gives comfort, winter or summer.

It's the best and easiest, most durable crank system available. Practically effortless lifting.

Fully equipped galley includes sink, two-burner stove, and Coleman's own 3-Way Cooler. Featuring accessible, ample storage room, drawers, and cabinet space.
