

New! Country Squire Folding Pickup Campers!

Coleman

More camping fun per gallon.

Coleman comfort and quality where bigger campers can't go!

Put more fun in your life, whether you own a full-size or mini pickup.

Anywhere you can drive your pickup, you can enjoy the great outdoors...Coleman style! Coleman's new Country Squire folding camper fits easily in your pickup bed...and opens up to twice the living room of comparable rigid wall units.

Yet, on the go, this lightweight folds to a low profile for minimum wind resistance...and better gas mileage.

The Country Squire sets up fast and easy, thanks to Coleman's unique rack-and-pinion lift system. It opens to a high-standing 6' plus headroom...with plenty of leg and elbow room to move about and dine in comfort. The full-sized door lets you in without stooping, and there's comfortable sleeping room for four.

A complete galley includes a 2-burner stove, a cooler, a sink with a 5-gallon water tank...and a dinette table you can use inside or out.

Roomy, built-in storage compartments hold a surprising amount of clothes, food and fun gear. Big windows give you great ventilation...and plenty of wide-open-space viewing. And even when the top is lowered, sliding screen windows permit excellent air flow.

The Country Squire is so compact when folded down, there's no need to take it off your pickup between trips! It maneuvers easily without swaying...even in city traffic.

And inside, you'll find plenty of room for storage or covered hauling. If you do need to take it off your pickup, optional mechanical jacks make it fast and easy!

Check out a Coleman Country Squire today. You'll even find a selection of attractive side-trim stripes to coordinate colors with your pickup.

So, what are you waiting for? Answer the call of the wild, Coleman Style...in your new Country Squire Folding Pickup Camper!

Handsome and functional! Like all Coleman Campers, the Country Squire is fully color-coordinated, styled and laid out for complete camping fun and convenience. And it practically doubles the size of your pickup bed for maximum camping comfort.

Complete galley! Keep perishables in the roomy 68-quart cooler...cook meals on the 2-burner range...and prepare meals or wash dishes at the handy sink with its 5-gallon water tank and outside drain. Dinette table can be used inside or out of the Country Squire.

And for mini pickups...here's the new Country Squire Jr.!

The Country Squire Jr. Everything you need to get away from it all in the great outdoors. Just think of the fun. Hunting in the fall. Fishing in the summer. Camping whenever you like. Go when you want to go. Do what you want to do...with your mini pickup and the new Country Squire Jr.!

The perfect pair for economical outdoor fun and real gas savings! Coleman now offers the Country Squire Jr. for those increasingly popular mini pickups. Like the larger models, the Junior folds down close to cab height for less wind resistance and better gas mileage, yet opens up to big camping convenience.

This compact camper is designed to fit both long- and short-bed mini pickups, and is fully equipped with all the camping comforts you want and need. Match a mini pickup with a Coleman Country Squire Jr., and you're in for real camping fun and economy!

Spacious interior! The Country Squire, Jr., has all the inside features found on the bigger model. The only significant changes are those of size and arrangement that are dictated by the smaller pickup bed it rides in. Color choice and styling are identical in both model sizes. Who says Coleman comfort can't come in small packages, too?

Low-profile design! See how the Country Squire tucks down behind the pickup's cab? That means minimal wind resistance on the go and better gas mileage! Plenty of covered storage space inside, too, while on the road or parked at home.

Easy setup! This handy crank activates Coleman's unique "HECO" rack-and-pinion lift system. It's the best, easiest-to-operate and most durable crank system you'll find anywhere. Lifting is virtually effortless.

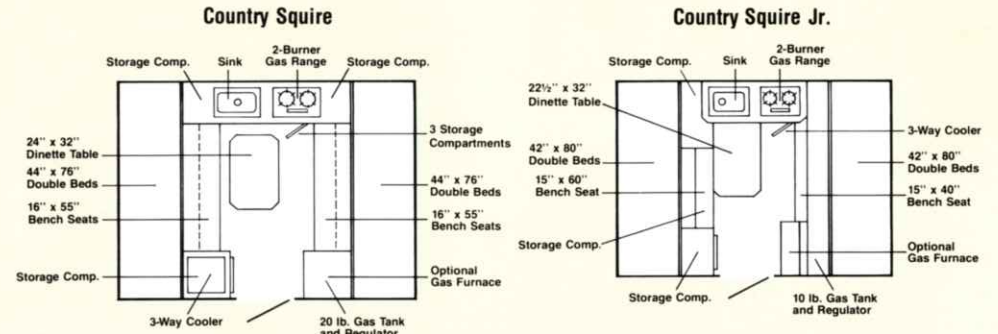

Going fishing? Take your boat along. It'll tow beautifully behind any pickup outfitted with a Coleman Country Squire. And you won't have any of the legal and maneuvering hassles of double trailering.
