

# 1984 Coleman Folding Camping Trailers

We bring out the best.

WE HAVE A BRIGHT REPUTATION FOR QUALITY.

**#1 Worldwide**

# An open and shut case for folding trailers, and why Coleman is the best.

## Why a fold-down

### Towability—

Easy to set up, easy to take down, a folding trailer is light enough to tow with your family car. Just hitch it up and off you go. With a folding trailer, you have sleeping, cooking and eating facilities that will follow you anywhere.

### Comfort and convenience—

If you like to camp but you're tired of tents, a folding trailer is a great way to get off the ground and into a comfortable, raised living arrangement. One that includes a comfortable bed, a dining table, handy storage compartments, a stove, a sink with running water, dome lights, electrical outlets and more.

### Economy—

Compared to other recreational vehicles, folding trailers are very affordable, not only in initial cost, but also in terms of maintenance and on-the-road expenditures. With most models capable of sleeping a large family, a folding trailer can virtually pay for itself in two or three years by saving on motel/hotel and restaurant vacation costs.

### Flexibility—

Folding trailers are ideal for family camping and more. They're particularly well-suited for serious fishing and hunting as well as outdoor concerts, races and parties. While big RVs can become a hindrance when parking, negotiating traffic and leaving the campsite for local touring, a folding trailer gives you the ultimate in flexibility.

## Why Coleman®

### A bright reputation for quality—

With over 80 years of building quality products, Coleman is the most respected outdoor products name in the entire world. And number one in folding trailers.

It all began back in 1900 with the advent of the now-famous Coleman Lantern. Our business philosophy—apparent even then in the quality and value of that product—became fully realized a few years later when W.C. Coleman, our company founder, established this motto: "No product is really sold until it is delivering satisfactory service for the user."

The spirit and content of those words have helped us always remember the importance of satisfying our customers. In folding trailers, we were first with a Conestoga™ wing bed design, a flip-up dolly wheel, a one-piece queen-size bed and many other innovations in design, safety and service. And with our proud tradition of quality and value as inspiration, we will continue to lead the way.

### A low-profile aerodynamic design that slips through the wind...and saves—

No other folding trailer manufacturer has products so well-designed for easy, economic towability. Coleman trailers are quite simply the best of their kind—engineered for the energy-efficient cars of the '80s. Every Coleman trailer offers a low aerodynamic profile,

unique riveted aircraft-type construction and a wide-track wheel base—all of which reduce towing resistance significantly. So a Coleman folding trailer slips through the wind with little effort and low fuel cost.

### Features that set the standard for luxury and excellence—

In quality, quantity and price, Coleman offers more creature-comfort features than any other manufacturer. Even our lowest-priced trailer is generously appointed with such Coleman exclusives as a one-piece aluminum screen

door and a sturdy, Self-Storing Stepper™

Time and again, we've been on the leading edge of feature introductions—first with moisture barriers around the beds, a hot-water shower, 4"-thick mattresses, a free-standing dinette table, the list goes on and on.

It's no wonder the rest of the folding trailer industry seems to measure their success in terms of how closely they can match the quality features of Coleman trailers.

### The finest materials—

Our "box beam" tubular steel frame has more strength than four-inch channel.

Our stainless steel, aircraft cable lift system is the strongest and most dependable in the industry. Designed specifically for Coleman Folding Trailers, it operates smoothly and includes a fail-safe device. What's more, our system is made of corrosion-resistant materials and features extra strong 1/8" stainless steel cable.

The front and back exteriors of a Coleman trailer are made of tough ABS plastic, and the sidewalls are double-wall construction.

To keep out even the smallest bugs, Coleman uses special fine mesh screening, rated 30% finer than our nearest competitor.

The canvas is heavy-duty duck, double-stitched and reinforced at the stress points. And our sturdy, one-piece wood floors feature quality Armstrong™ coverings.

Everywhere you look on our trailers, there are fine materials contributing to a fine product. And over 90% of the components are manufactured exclusively by Coleman. That's why we can offer a limited five-year warranty that covers the most important parts of your trailer (three years on labor). Check our warranty at your local Coleman Camping Trailer Dealer.

### Fabricated and assembled by Coleman craftsmen in a state-of-the-art environment—

It all happens at our ten-acre, modern manufacturing facility located in the beautiful mountains of central Pennsylvania. Here, our employees, the most experienced folding trailer work force in the world, link the future with the past, using the latest tools of modern technology coupled with traditional craftsmanship.

### The highest resale value in the industry—

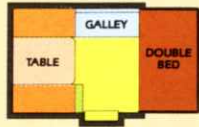

New or used, Coleman trailers tend to hold their value year after year. It's because of our name and all that goes into our folding trailers—aerodynamic design, solid construction, careful attention to detail, economy, comfort, luxury. Plus something more: our beginning, our history and our bright reputation for quality.

# From the basic Jamestown<sup>®</sup> Ltd. to the luxurious Williamsburg<sup>®</sup>, there's a Coleman<sup>®</sup> trailer to fit your family, budget and life style.

## The Pioneer<sup>™</sup> Series—five trailblazing economy trailers loaded with these valuable standard features:

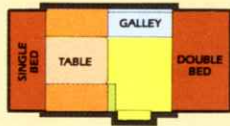

- free-standing dinette
- hard-backed dinette cushions convertible to bed
- complete galley
- water tank
- clear vinyl windows
- dome lights

- attached bed supports
- swing-up dolly wheel
- aircraft-type stainless steel lift system
- Coleman<sup>®</sup> Stepper<sup>™</sup> with dead-bolt lock
- one-piece aluminum screen door
- Conestoga<sup>™</sup> wing-bed design
- 36" headroom over beds
- moisture barrier around beds
- convenient 35" galley height
- double-needle stitching and fine-mesh screening
- 6'5" interior height
- stove cover and splash guard

### Jamestown<sup>®</sup> Ltd.

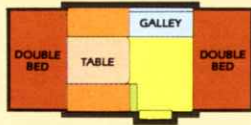

- 4-sleeper
- 760 lb. curb wt.
- one double bed
- 2-burner stove

### Redwood<sup>®</sup>

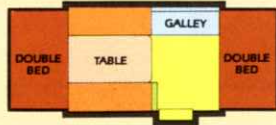

- 5-sleeper
- 820 lb. curb wt.
- one double and one single bed
- 2-burner stove

### Columbia<sup>™</sup>

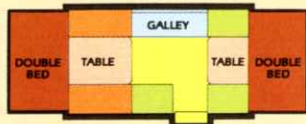

- 6-sleeper
- 870 lb. curb wt.
- two double beds
- 2-burner stove

### Newport<sup>™</sup>

- 6-sleeper
- 990 lb. curb wt.
- two double beds
- 10" tires
- 2-burner range

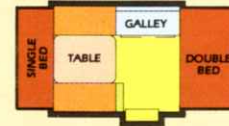

### Cape Cod<sup>™</sup>

- 8-sleeper
- 1180 lb. curb wt.
- 2 dinettes
- 3-burner stove
- 10" tires

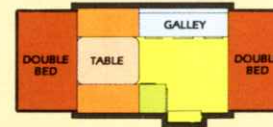

## The Americana<sup>™</sup> Series—everything the Pioneer<sup>™</sup> Series offers and more; a swing-level galley,\* 4"-thick mattresses, vinyl-backed drapes, a Coleman<sup>®</sup> Convertible<sup>™</sup> 3-way Cooler and other extras that count.

### Colonial<sup>®</sup>

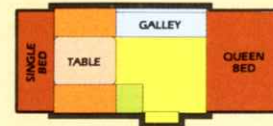

- 5-sleeper
- 855 lb. curb wt.
- one double and one single bed
- 2-burner stove

### Sun Valley<sup>®</sup>

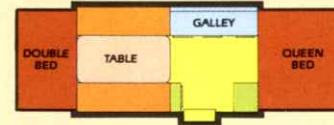

- 6-sleeper
- 895 lb. curb wt.
- two double beds
- 3-burner stove
- 10" tires
