Folding Trailers

Coleman

BY FLEETWOOD®

It's an experience you will never forget. The feel of the warm sun on your back...the sound of the wind rushing through the treetops...the exhilarating smell of a pine forest...the tantalizing aroma of coffee brewing early in the morning. All part of the cherished memories of camping—memories you carry with you forever.

Coleman Folding Trailers have been an important part of those special memories for over 24 years, bringing comfort, safety and convenience to your family camping experience.

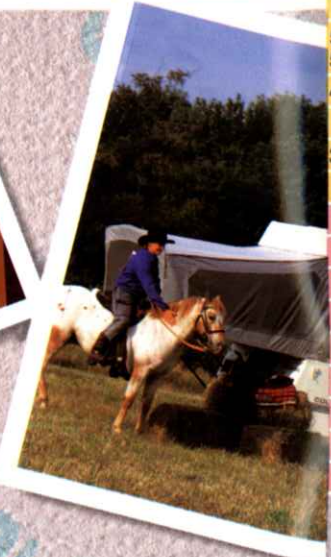

And now, Coleman Folding Trailers are a part of the Fleetwood family of recreational vehicles. Fleetwood is the world's largest manufacturer of RVs with a nationwide dealer and service network...and is committed to providing *you* with top value and lasting quality.

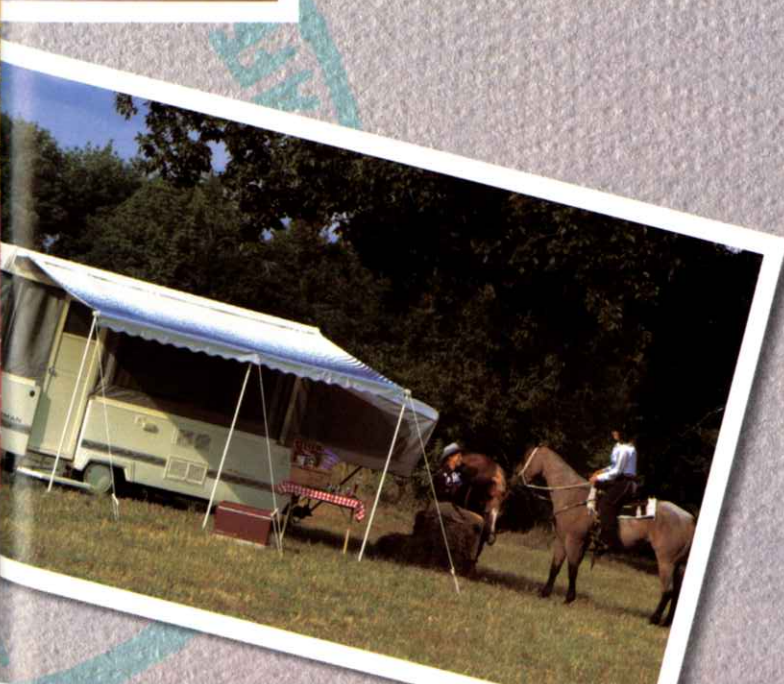

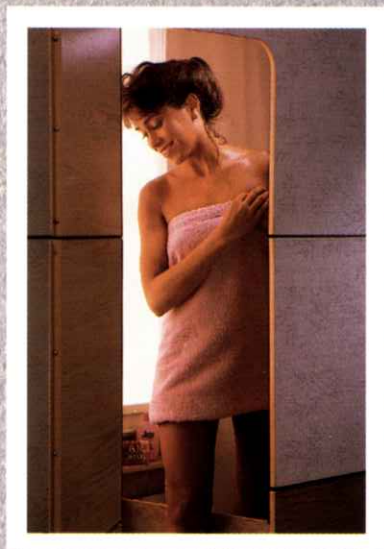

So whether your preference is a private campground with luxurious amenities or an isolated clearing far from the beaten path, there's a Coleman Folding Trailer built for you!

Coleman and You ...
Building cherished memories to last a lifetime.

PLANTATION

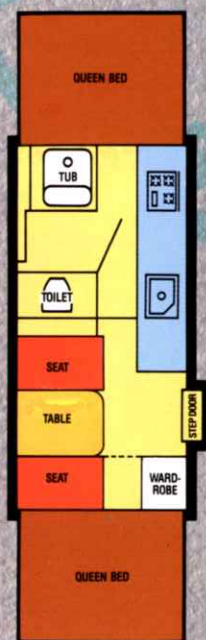

The most luxurious of the Coleman Folding Trailer line, Plantation combines maximum interior space with easy maneuverability. Featuring designer-coordinated fabrics and woodtone finishes throughout, Plantation offers a sunken (or step down) kitchen with color-coordinated porcelain sink, built-in gas/electric refrigerator, three-burner range and oven. Add to this the ample countertop and storage space and you have a functional and practical kitchen that will serve you well whether it's for weekend excursions or extended vacations.

The dinette features upholstered, wood-backed bench seating for long-lasting durability and comfort. The convenient vertical wardrobe converts easily to provide additional seating.

The solid-wall shower/tub and toilet area offers complete privacy. And the convenient outside-access to the waste disposal system makes waste elimination quick and efficient. Plantation even provides a ground fault receptacle for outside power sources.

These features, along with Coleman's promise of rugged dependability make Plantation a distinctively attractive and functional folding trailer.

PLANTATION™

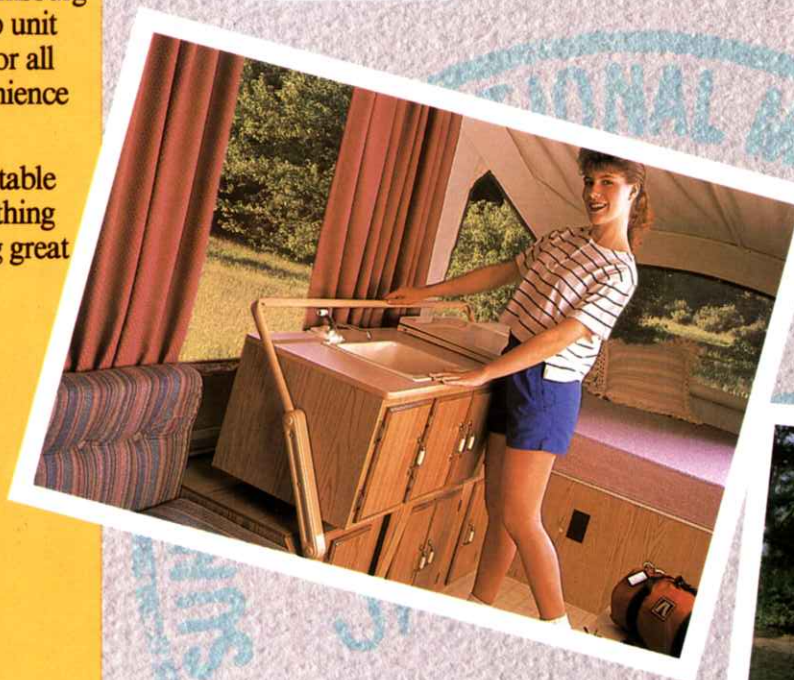

Coleman's most popular line of folding trailers—the Americana series—offers five models with a range of features as special as the land from which they got their name.

Americana gives you the very best of the Coleman Folding Trailer features in models like Sequoia, which provides for outdoor cooking with a 20,000 BTU high pressure stove. In the Shenandoah you'll find a vertical wardrobe that does double duty as additional seating. And the Williamsburg gives you a shower/tub unit with hot water heater for all the comfort and convenience of home.

The affordable, comfortable Americana—It's everything you'll want for building great memories.

GRAND CANYON, ARIZ.

EXCLUSIVE FEATURES:

The streamlined engineering of the Americana exterior reduces wind resistance and makes towing a breeze. Interiors are strikingly appointed with designer-coordinated fabrics and durable finishes—all materials are of the highest quality standards intended to deliver many years of pleasant vacation memories.

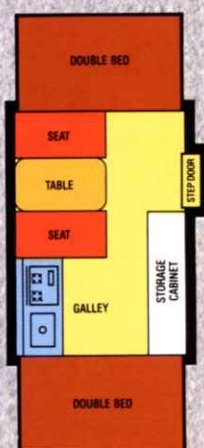

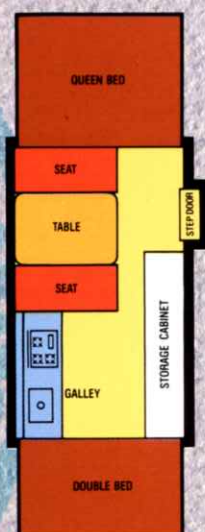

Three models feature queen-size beds with cushiony four-inch-thick mattresses. Coleman's exclusive Swing-Level® galley makes set up a snap and features three-burner, color coordinated porcelain stove and sink. Best of all, the galley offers an abundance of storage space.

- A** Wrap around lights and recessed top latches
- B** Roof rack and gas bottle cover (optional)
- C** Outside storage access
- D** Lockable utility ports for security and protection

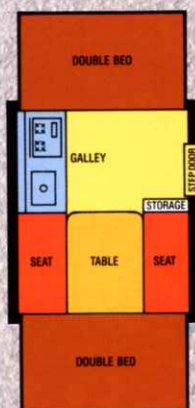

Valance Accessory Option

CHESAPEAKE

NEWPORT

COLUMBIA™

CHESAPEAKE

NEWPORT

Economy and efficiency without sacrifice of comfort are the standards of the Pioneer line of Coleman Folding Trailers. And in the three models available in the Pioneer series, you'll find common sense features that you'd expect from a company that's been building memorable outdoor experiences for a quarter of a century.

The Chesapeake model features a side dinette and over 41 cubic feet of storage area. Even the smallest Columbia features room to sleep six. The mid-size Newport features a side dinette floor plan and loads of deluxe features.

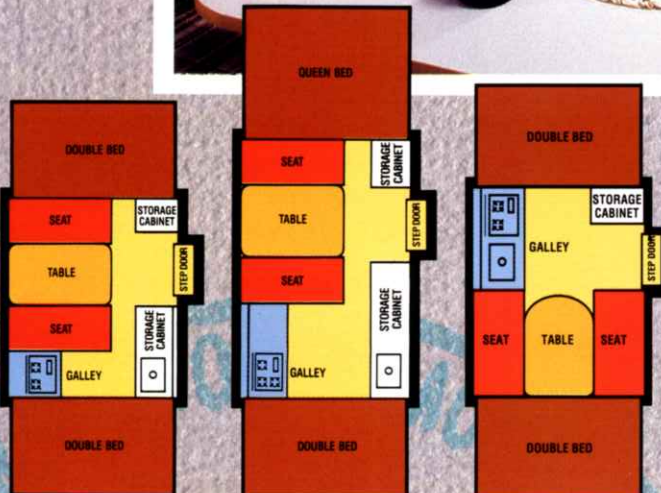

Pioneer Folding Trailers are designed with ample storage, a fully equipped galley and standard features usually found only on much more expensive models. The one-piece aluminum screen door is lockable, secure, weather tight and bug proof! Coleman's Stepper™ door with deadbolt lock and Stepperlite™ is a quality engineered convenience and safety feature found exclusively on Coleman trailers.

From the free-standing dinette table to the clear vinyl windows, ceiling light and power converter, Pioneer is the ideal family vacation vehicle.

COLUMBIA

ROANOKE
ROANOKE CD

ROANOKE™ ROANOKE ROYALE™ ROANOKE O™

COLORADO

ROANOKE ROYALE

The Destiny Series is the newest addition to the quality line of Coleman Folding Trailers. The Roanoke, Roanoke Royale and Roanoke CD represent unequalled value in today's folding trailer market. Quality features include side dinette arrangement in two models. The Roanoke adds the convenience of inside/outside sink and water, while the Roanoke CD offers the utility of inside/outside cooking. All models feature ABS plastic impact-resistant front and rear body panels and loads of storage space.

C O L O R A D O

COLORADO

The Colorado for the down-to-basics outdoor enthusiast. Its unique design provides a surprising amount of space, enough to sleep four adults. It features a built-in canopy, portable dinette table, 600 lbs. cargo capacity, and quick and easy setup. The fun and feel of tenting with none of the hassles.

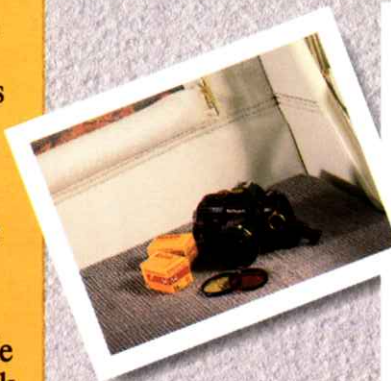

For almost a quarter of a century, Coleman Folding Trailers have been helping American families enjoy the carefree pleasures of camping vacations. Every detail of each of our models is designed to enhance their performance ...and your enjoyment.

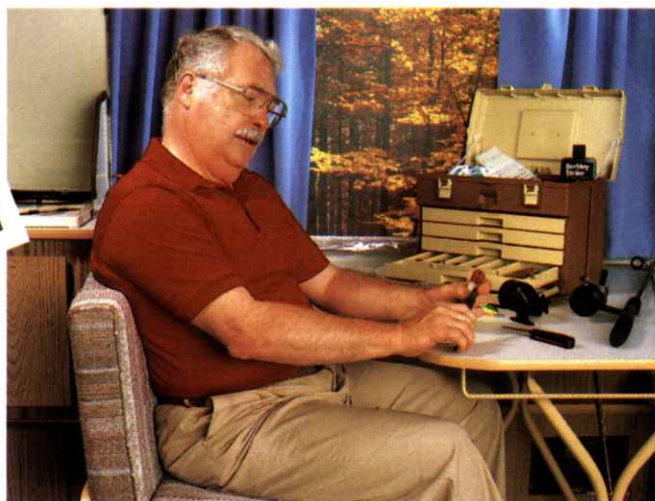

Coleman Folding Trailers are designed with the whole family in mind—with quick-cooking stoves, plenty of elbow room, comfortable beds, portable dinette tables for inside or outside dining, and dozens of other quality features that are distinctively Coleman.

Find out more from your Coleman dealer. Then experience America's best scenic wonderlands in a Coleman Folding Trailer.

These practical and common sense features didn't come about by accident. They have been designed and refined by people who use the products they build...Coleman engineering and craftsmanship make the difference.

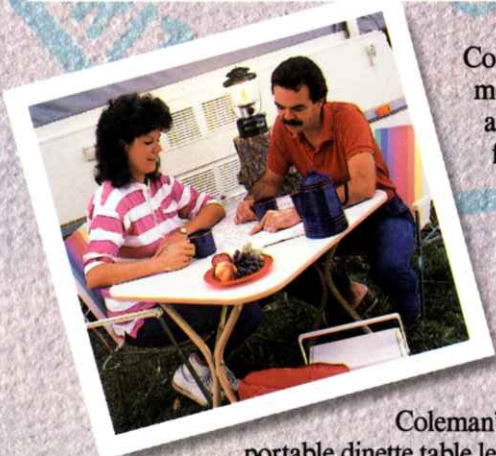

A vinyl moisture barrier surrounding the bed ends keeps you and your bedding dry—even in the wettest weather.

Coleman's comfortable, wood-backed dinette seat cushions lock in place. They stay put and offer more back support and comfort than loose foam cushions without wood backing.

Conestoga-designed end bunks are angled to permit air flow and cross ventilation inside your trailer even in a heavy rain storm without letting in any water.

Coleman beds offer more headroom and are lower in floor-to-bed height for easy sitting comfort and easy access—even for tiny tots.

Coleman's free-standing, portable dinette table lets you eat inside or "dine out" whenever or wherever you choose.

Coleman's Stepper™ door features our unique Stepperlite™ for illumination where you need it most. Coleman's Stepper is broad, sturdy and safe and positioned at a convenient height.

Coleman camping stoves work like a breeze—even in a breeze! These dependable outdoor stoves generate 10,000 BTUs per burner. Competitors' stoves, designed primarily for indoor use, don't function nearly as efficiently in the out of doors.

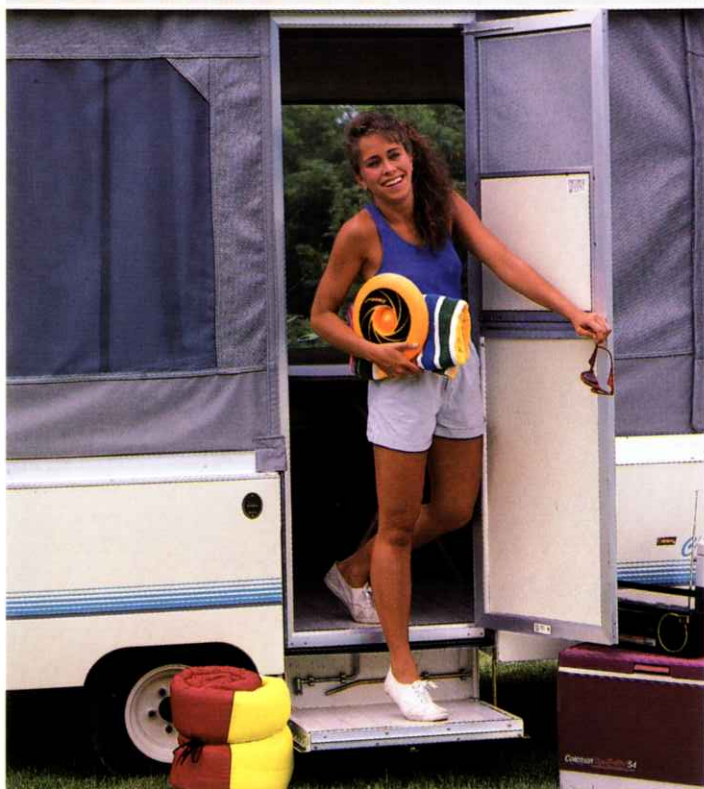

Self-storing, easy access swing-down stabilizers for quick, rock-solid stabilizing.

The convertible ice chest pictured is standard in Sequoia, Shenandoah, and Williamsburg models.

Coleman ice chests are portable so they can be used even when your camper is not. Best of all, you don't lose valuable inside storage space by building in the cooler.

CAMPING CONVENIENCE AT ITS BEST

Two exclusive Coleman features give you convenience you won't find in other trailers. The self-storing Stepper™ door is a wide, sturdy step placed at a height even small children find comfortable. And the one-piece aluminum screen door has a privacy window panel, waist-level doorknob and built-in automatic spring return. These are just a few of the extra special touches we build into each Coleman Trailer.

Conveniently located at waist-level, the lifter crank makes raising or lowering the camper top almost effortless.

The swing-down, self-storing dolly jack makes hitching up and positioning your trailer a snap.

Lifter crank and stabilizer handles are stored in a convenient, easy-access location located at the base of your Stepper door.

Coleman's bed supports are permanently attached to the wing beds. To set up, simply pull down from the bed. They can never be left behind or lost.

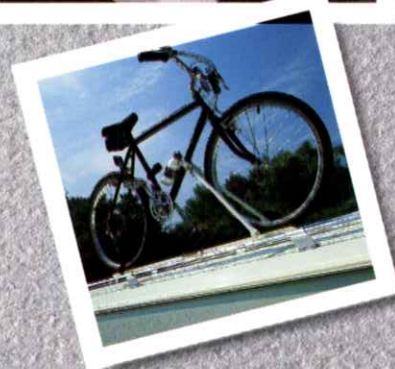

Americana™ Series

BOAT RACK

Ideal for securing boats, canoes or bulky cargo. Distributes the weight evenly over the trailer for driving safety, with virtually no appreciable difference in the camping trailer's economical "one extra gallon per hundred miles" towing mileage.

Plantation™/Pioneer® Series

TOP MOUNT BIKE RACK

Mounts to the top of your camping trailer. Must be used in conjunction with boat rack.

FURNACE

Keep warm in chilly weather with Coleman's 12,000 or 20,000 BTU thermostat controlled forced air furnace with electronic ignition.

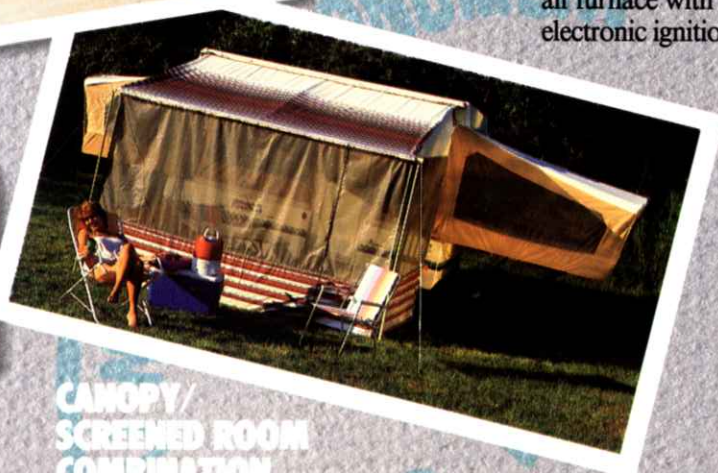

INSTALLED REFRIGERATOR

Keeps your perishable food longer and fresher. Operates on AC/DC electric and LP gas.

BATTERY MOUNT KIT

Installs easily on the tongue A-frame of your trailer. Will hold a 12-volt battery secure and conveniently out of the way.

CANOPY/ SCREENED ROOM COMBINATION

The canopy provides shade and protection from the elements while the screened add-a-room offers additional living space.

1-800-4-A-TRAILER

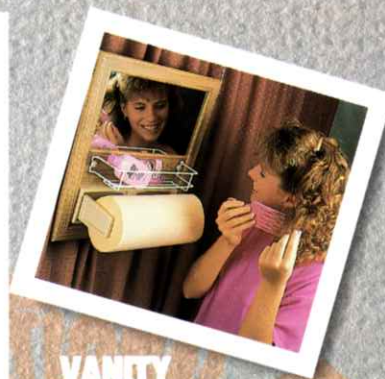

AIR CONDITIONER

Keep cool with this Coleman roof-mounted air conditioner.

PRIVACY CURTAINS

Create a "private" bedroom with these attractive curtains.

VANITY BOARD

Includes large mirror, shelf and towel rack.

GAS BOTTLE COVER

Ideal for protecting your propane container and valves from dirt, road spray and the elements.

CONTOURED ABS PLASTIC GAS BOTTLE COVER

Enhance the aerodynamics of your Americana™ Folding Trailer and protect your gas system.

OUTSIDE STOVE AND BRACKET

Attached to the outside of your trailer, this unit generates 20,000 BTUs of outdoor cooking power. And the burners can't be blown out even in a wind storm.

HEAVY-DUTY STORAGE BUMPER

Provides protection, safety and extra storage.

REAR MOUNT BIKE RACK

Carries two bikes.

OVERHEAD CABINET

Provides an extra bit of space that always comes in handy.

SPARE TIRE COVER

Pioneer® models only. It looks good and keeps your spare clean.

SPARE TIRE TRUNK

Americana™ models only. Tucks spare tire out of the way but swings down easily when needed.

LIFETIME LIMITED WARRANTY

Coleman
FOLDING TRAILERS

The best part of Coleman's Folding Trailers may be the part you can't see — our quality construction. We're so convinced that our trailers are the best on the market that we offer a warranty that is unsurpassed in the industry. Coleman's famous Lifetime Limited Warranty guaran-

tees the structural integrity of the lift system, floor and steel frame for lifetime to the original purchaser. In addition, the

roof is covered by a five-year limited warranty and the Evolution 3 tenting material

Rugged ABS front and rear panels

by a three-year limited warranty to the original purchaser.

Our body is engineered with automotive-type sidewall construction for maximum strength. Coleman Folding

Trailers surpass industry standards by utilizing heavy gauge aluminum that is riveted and screwed to the frame.

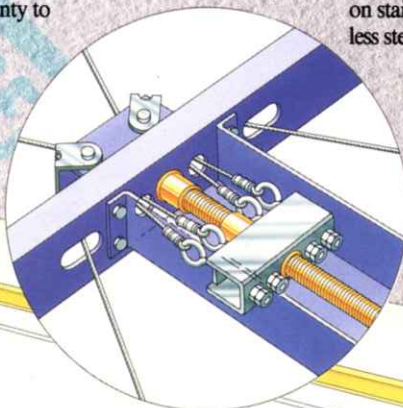

Coleman uses tough "box beam" frame construction to provide unequalled rigidity, strength and dependability. Coleman frames have 25% more steel than standard C-channel type framing. Our outdoor-grade wiring is fully insulated and enclosed to prevent fraying and other damage from heat, cold and the elements.

Coleman's patented lift system operates easily every time because the integral telescoping lifters are solidly bolted to the frame and made of heavy gauge stainless steel, to prevent

binding or rusting. The fail-safe lifter mechanism functions smoothly on stainless steel

Clear vinyl windows

needle bearing pulleys.

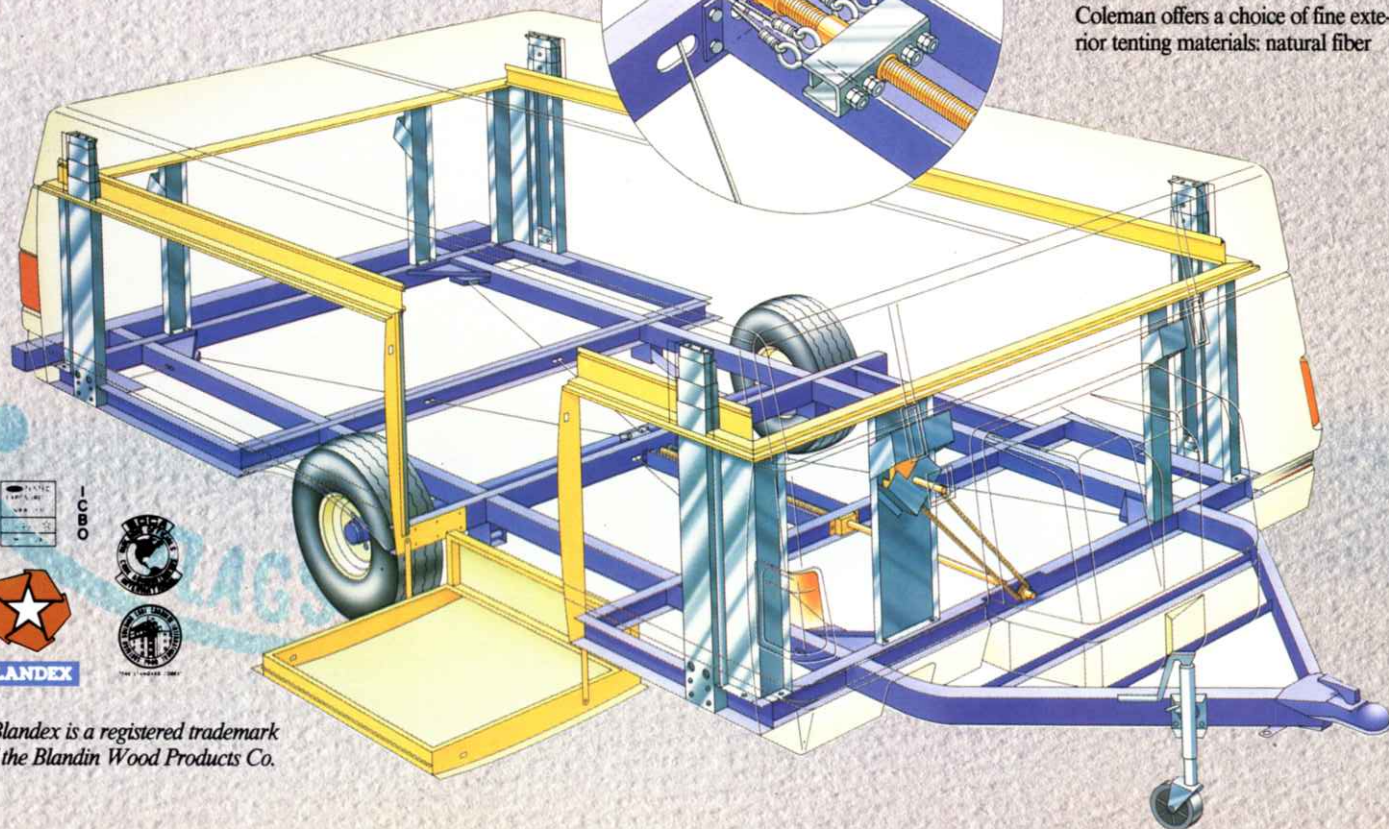

Like the finest homes, Coleman Folding Trailers feature wood floors. Specially treated, one-piece Blandex®* provides foot comfort, insulation and seamless construction. It also eliminates the moisture build-up that causes the inner and outer floor deterioration often found in the metal or

Coleman features an interlocking, full-perimeter skeletal framework that is exclusive and unique to Coleman trailers. They'll take rougher roads, more abuse and last longer than competitive brands because of Coleman's superior construction technology.

plastic-to-flooring construction of other folding trailers. We back our trailers better because we build them better!

Coleman offers a choice of fine exterior tenting materials: natural fiber

BLANDEX

Weathertex™ canvas or man-made Evolution 3. Both feature lock stitching that won't "run" when snagged and back tacking at stress areas for long-lasting performance.

Evolution 3 is more expensive than canvas but is offered as a no charge option.

Each folding trailer Coleman constructs utilizes 75 feet of heavy gauge ultra-strong 1/8" stainless steel aircraft cable, rustproof and virtually unbreakable.

No dark, smoked vinyl here! Instead, Coleman brightens your world with tough, clear vinyl windows that lighten your living space.

Coleman's paint process features a supreme bonding film which yields excellent adhesion and elasticity as well as providing high resistance to ultra-violet degradation and corrosion.

Acrylic-coated, high-impact ABS front and rear panels won't crack or chip under tough conditions. This

Every employee takes pride in producing the highest quality folding trailers available.

space-age material looks great even after years of rugged use and keeps protecting your investment year after year.

Each end bunk is engineered to support 750 lbs.

EVOLUTION® 3* THE STATE-OF-THE-ART TENTING MATERIAL

Evolution 3 tenting material is covered by a three-year limited warranty to the original purchaser.

COLEMAN USES NOTHING BUT THE BEST MATERIALS IN THE MANUFACTURE OF ITS FOLDING TRAILERS. EVOLUTION® 3 IS USED EXCLUSIVELY ON OUR TOP-OF-THE-LINE TRAILERS AND GIVES YOU MORE WAYS TO STAY COMFORTABLE WHEN YOU CAMP.

Brighter interior. Only Evolution 3 fabric gives your folding trailer the added appeal of an off-white interior for a brighter, cleaner and more spacious appearance. You'll find your camper to be more attractive and more livable.

Breathable freshness. Evolution 3 fabric keeps you comfortable because it allows warm weather humidity and cold weather moisture to escape, even when the doors and windows of your camper are shut tight, keeping you cooler in summer and warmer in cold weather.

Hypoallergenic. Evolution 3 fabric is different from natural fiber tenting that may cause a discomfort to some individuals with allergies to natural fibers.

No rot or mildew. Evolution 3 fabric will not mildew or rot, even if you pack your camper away when it's wet. This means every time you set up your trailer, it will smell fresh, look clean and be ready for use, even after being stored for the winter.

Resists elements. Evolution 3 fabric is not affected by acid rain, tree sap, bird and insect droppings, salt, dirt or other common outdoor

elements that might harm other types of trailer fabric.

Safety comes first. Evolution 3 fabric for folding trailers meets all of the Federal Government's stringent MVSS 302 (Motor Vehicle Safety Standards) requirements for flame retardance.

Odors don't linger. Even with the windows and doors tightly shut, Evolution 3 fabric's unique breathability allows cooking and storage odors to escape. And your folding trailer stays fresh because the fabric does not retain odors that pass through it.

Strong without shrinkage. With three layers bonded together, Evolution 3 fabric is extremely strong and durable. It's tough enough to stand up to tears, rips and punctures. And Evolution 3 fabric won't sag, stretch or shrink, so it always maintains a perfect fit.

Easy to clean and maintain. If Evolution 3 fabric becomes soiled, just wash the affected area with Ivory Snowflakes and rinse thoroughly. This stain protection keeps cleaning to a minimum, and your folding trailer looking as good as the day you bought it.

Water resistant. The unique three-layer construction of Evolution 3 fabric is naturally water resistant so no matter what the weather is like outside, you'll stay dry and comfortable inside. And it maintains its water resistant capabilities without the need for any additional treatments. The waterproofing is built in!

Natural fiber Weathertex™ Canvas is used on the Roanoke™, and Roanoke Royale™. Both Evolution 3 and Weathertex™ feature lock stitching that won't "run" when snagged and back tacking at stress areas for long lasting performance.

Fleetwood and Walt Disney World

Now is the time to look at a new Coleman Folding Trailer, one of the Official RVs of Fort Wilderness at the WALT DISNEY WORLD Resort. Only Fleetwood makes them. Why? Because throughout the RV lineup from Fleetwood, America's No. 1 builder, you'll find top family value.

Plan the "break-in" trip to Fort Wilderness after you've purchased your new Coleman. While you're there, be sure to stay at the Fort Wilderness Campground Resort. And, take your family to Pioneer Hall for the Fleetwood-sponsored Hoop-Dee-Doo Musical Revue. It's a foot-stompin', hand-clappin' extravaganza you'll never forget.

Your local Coleman dealer is:
