

RECOMMENDED CLEANING PRODUCTS FOR ABS TOPS

BASF

**We don't make a lot of the products you buy.
We make a lot of the products you buy better.®**

The roof on your new Coleman® Folding Trailer by Fleetwood® is made of Luran® S ASA, a highly durable thermoplastic from BASF Corporation. Luran S ASA makes your folding trailer roof better by delivering superior strength and protection even in the harshest weather conditions. Luran S ASA also delivers long lasting good looks, and if properly cared for, your new roof will retain its appearance through years of service and exposure.

To keep your Coleman Folding Trailer roof looking good, it's important to follow the simple cleaning instructions below.

Cleaning instructions for your Luran S ASA folding trailer roof:

- Always use the cleaner according to the manufacturer's directions.
- Use a soft, clean cloth to apply the cleaner.
- Apply the cleaner to the cloth rather than directly to the roof.
- Clean only a small portion of the surface at one time.
- After cleaning, rinse off the surface as completely as possible.

For general cleaning, the following products can be used:

Ivory® (soap and water solution)	Scrubbing Bubbles®
Formula 409®	Fantastik®
Windex®	Simple Green®
Spic and Span®	Pine Sol®

For heavy cleaning, use the following products - but remove immediately after use:

OOPS®
Soft Scrub® (Use caution! May slightly abrade surface.)
Turtle Wax® Bug & Tar & Tree Sap Remover

DO NOT USE

(These products will damage the surface):

Acetone
Goof Off®
Any products containing esters, ethers, ketones, aromatic and chlorinated hydrocarbons
Isopropanol (concentrations greater than 25%)

If you have any questions about cleaning your Luran S ASA roof call BASF Corporation Plastic Materials at 1-800-527-TECH.
