December 1998

TENT SUPPORT ADAPTERS

This kit contains:

- 2 - 4757-135 Support adapters
- 4 - 4759A305 Tek screws
- 1 - Installation instructions for all ABS tops with steel loop tent support brackets.

IMPORTANT NOTICE

These instructions are for the use of qualified individuals specifically trained and experienced in the installation of this type equipment and related system components. Installation and service personnel are required by some states to be licensed. Persons not qualified shall not attempt to install this equipment nor interpret the instructions.

NOTE: The steel loop tent support brackets can be found on the inside front and rear of the top assembly.

1. With the trailer in the raised position, remove the tent supports from under the front and rear mattress assemblies.

2. Slide the tent support adapter over the end of the support assembly with the tube closure.

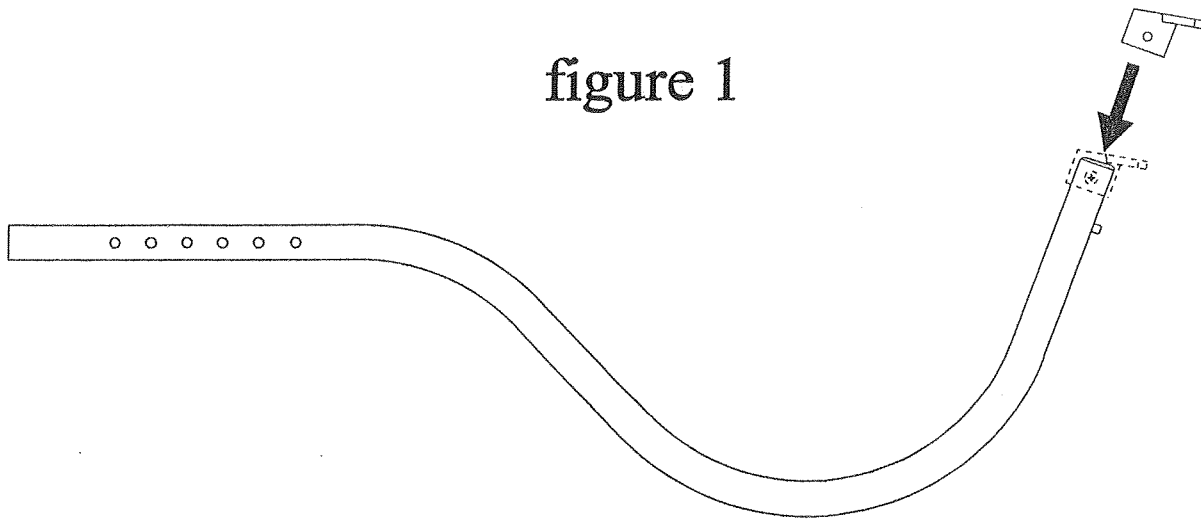

NOTE: It may be necessary to depress the spring clip to allow the adapter to seat. Be certain the adapter is oriented as shown in figure 1.

3. Install two tek screws through the adapter and tent support to hold in place.

4. Repeat process for second tent support assembly.

5. The tent supports are now prepared for customer use.
