Remove top thermal sticker from SSD
before installation, or else the adapter
might not fit in the Expresscard slot.

LED toggle switch is very fragile -
please be careful when switching.

This adapter only supports PCI-E
(NVMe) based SSDs. SATA drives
are not supported.

Quick Start Guide
Schnellstartanleitung

Step 1 Insert PCB into desired chassis size. If your adapter has an LED, insert it into the hole at an angle, as shown.

Step 2 Install 4x M1*2.5 corner screws.

Step 3 Insert SSD at an angle before lowering to be flat.

Step 4 Install 1x M2*3 SSD screw.
