

2-Strand Wall Knot

1. Find center of cord and string on a button.
2. Twist **right** cord clockwise and place on **left** cord.
3. Feed the tail of the **left** cord through the loop made with the **right** cord.
4. Continuing with the left cord, go **over** the right cord and **behind** and out through the original loop.
5. Pull slack tight and repeat until desired amount of knots are tied.
