The StashCan®

power up The StashCan®

- plug in the StashCan® using the supplied USB power supply.
- turn on the power with the “On/Off” switch.

a white light will start circling the LED ring.

*in order to guarantee performance, be sure to use the supplied USB cable and power supply.

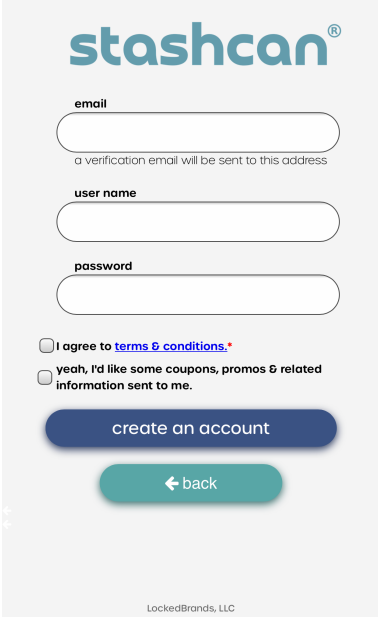

getting started

- download The StashCan® App to control your StashCan®.

setting up your StashCan® account

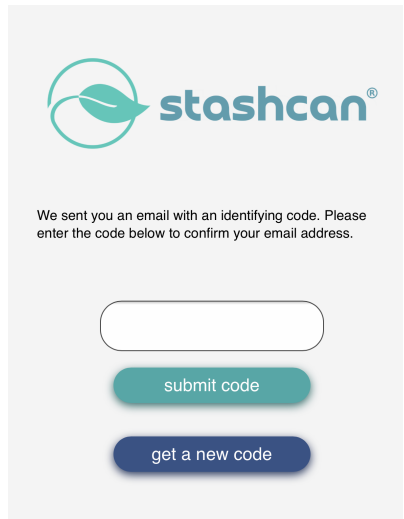

- open the app on your device and select “create an account”.
- fill the fields with their respective information.
- agree to the “Terms & Conditions” and opt in for email, promos, and related information.
- press “create and account” to continue.

The screenshot shows the StashCan account creation interface. At the top is the StashCan logo. Below it are three input fields: 'email', 'user name', and 'password'. The 'email' field has a note: 'a verification email will be sent to this address'. Below the fields are two checkboxes: 'I agree to terms & conditions.*' and 'yeah, I'd like some coupons, promos & related information sent to me.' At the bottom are two buttons: 'create an account' and '← back'. The footer text reads 'LockedBrands, LLC'.

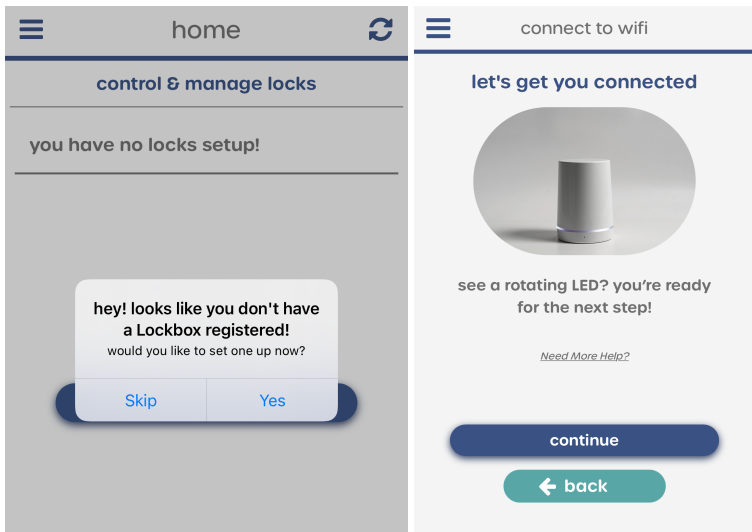

setting up your StashCan® account

- a verification code will be sent to the email provided.
 - if you don't see it in your inbox, check your spam folder before trying again.
- type the verification code and press "submit code".

A screenshot of a web page for StashCan verification. At the top is the StashCan logo, which consists of a teal leaf inside a circular shape, followed by the text "stashcan®". Below the logo, the text reads "We sent you an email with an identifying code. Please enter the code below to confirm your email address." There is a large, empty, rounded rectangular input field. Below it is a teal button with the text "submit code". At the bottom is a dark blue button with the text "get a new code".

connect to WiFi

- press “yes” on the pop-up for the app to guide you through the set-up process.
- follow the on-screen instructions.

connect to wifi

- press the “open wifi settings” button to be taken to your device’s wifi settings.
- select the network named: "Lockbox xxxxxxxxxx" and wait for connection, indicated by the checkmark.
 - It may take several minutes to connect - Unsecured Network warning is OK.
- go back to the StashCan® app once connected.

connect to wifi

go to your phone's wifi settings and connect to the network that begins "Lockbox."

wait for the check mark next to the wifi name. **it may take up to 2 minutes to connect.**

once done, come back to this app to continue setup.

connect to wifi

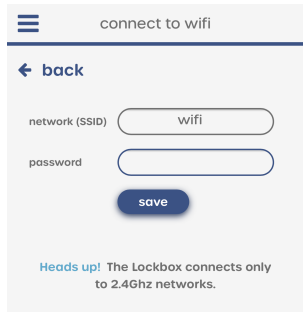

- press yes on the pop-up to confirm that the LockBox is connected.
- wait for 'lockbox connected successfully' and then press 'continue'

connect to wifi

- a list of available wifi networks will appear.
- select your wifi network and enter your password (with the appropriate upper and lower-case characters).
- press "save".

connect to wifi

- your StashCan® will now reboot: LED lights will go through multiple color changes.
- give it about two minutes
- you are ready to go when the base lights up in **solid blue**.
- press “they’re SOLID blue” to continue.
- NOTE: if your StashCan® LEDs are rotating blue after entering your password, please cycle power and return to step 3.
- *to cycle power, go to the underside of the Stashcan® and locate the power switch. move the switch to the 0 position (OFF). after 10 seconds, move the switch to the I position (ON).

register your StashCan®

- give your lockbox a name in the “name your lockbox” field.
- press “continue”.
