

PRODUCT SPECIFICATIONS

1-TEMP THERMOLABEL[®] Temperature Indicators

Our completely waterproof 1-Temp Thermolabel features a temperature sensitive element that produces a non-reversible white to black color change at the rated temperature. This provides a clear indication that the temperature has been reached. The temperature element is fully enclosed and protected with a clear plastic overlay, providing both moisture protection and durability, making these labels ideal for a wide range of applications. Store in a cool, dry place; preferably under refrigeration.

Unit of Measurement	Package
Labels Per Package	24
Country of Manufacture	USA

Dimensions	1/2" x 1 13/16"
Waterproof	Yes
Response Time	Approximately 10 to 15 seconds

71°C
170°F
77°C
180°F
82°C
250°F
121°C

Product Instructions:

Remove label from sheet. Adhere to a clean surface. Press firmly and ensure that there is full contact with the test surface. Heat/run through procedure that is being tested. The gray/white temperature sensitive elements will turn black as the rated temperature is reached. Allow to cool to the touch before slowly peeling the label off the test surface to avoid leaving adhesive residue.
