Desk Screen+

Medworx Desk Screen+ – ‘the desk screen with an environmental conscience’

In September 2020, Hampshire Police Constabulary purchased a handful of our Standard Desk Screens, they loved the recyclability, with its FSC walls and prevented ocean plastic windows. As a result, they enquired if we could create a bespoke Screen for all their officers and employers based around Hampshire. Our Desk Screen+ is designed to offer extra protection from colleagues sat immediately next to you.

SUPPORTING
FRONTLINE WORKERS

The Medworx Desk Screen+ is designed to provide a premium looking, economical and environmentally sourced, solution for the office, with the added benefit of extending protection beyond the standard desk boundary. Comes ready-assembled for quick and easy installation within the workplace, negating the need for skilled fitting or expensive add-ons needed to secure to the desk. Made from recyclable board and PETG.

Overall design outline

- Extra deep side panels to create a barrier between adjacent desks. Additional 550mm overhang on an 800mm deep desk.
- To fit three desk sizes: 1600mm wide x 800mm deep, 1400mm wide x 800mm deep & 1200mm wide x 800mm deep.
- Ecofriendly materials which can be recycled.
- Fixed to the desk with non-permanent gel pad adhesive.
- Clear plastic windows in sides and back panels to allow for communication within each desk screen, daylight etc.
- Light and very easy to install in a large office.
- Side panels have tapered bottom edge to avoid collisions and create a modern look.
- Access areas for plugs and other cables to be fed through back panels.
- All desk screens are 585mm tall.

MATERIALS

- FSC corrugated cardboard. *"Our corrugated walls are made from at least 70% recycled material".*
- FSC number C152726.
- rPET clear plastic windows. *"Our clear plastic windows make use of the bottles harvested from the ocean".* Prevented Ocean Plastic.

DELIVERY

- Packed individually in a strong box.
- Supplied with a printed fitting instruction sheet.
