HANGING ADVICE AND INSTRUCTIONS

- We advise to use an experienced wallpaper hanger/installer.
- Always check quantities with your installer prior to purchase and installation.
- You will need:
 - Plenty of floor space
 - A wide wallpapering bench (or two standard benches together)
 - Sharp blades and a straight edge for trimming
 - A measuring tape
 - A good quality pre-mixed adhesive for heavy paper.
- Walls should always be prepared, smooth, sealed and cross lined prior to installation. A good installer should recommend a suitable lining paper.
- Taking the pattern repeat into account, measure and cut the wallpaper to wall height allowing excess at the top and bottom.
- Trim off the selvage using a straight edge and sharp blade, at the inside edge of the green 'cut line' as indicated.
- Apply adhesive to lined walls.
- Place the paper onto the wall, brushing out any bubbles.
- Cut off any excess at the top and bottom.
- For subsequent drops, ensure the pieces are cut at the exact same point in the design as your previous drop in order for the pattern to match horizontally.
- When hanging, match the pattern at eye level, and use a spirit level and faint pencil line to ensure the paper is vertical.
- Place the paper onto the wall. Joins should be tightly butted and never overlap.
