

BEATA HEUMAN

THE ROMAN STUD

INSTALLATION ADVICE:

- The Roman Stud can be used as a knob for drawers and cupboards, or as a hook.
- It is provided with a 60mm long, 6mm diameter, threaded bolt and a brass dome nut.
- After checking that the bolt is tightly screwed into The Roman Stud, the bolt should then be cut down to the required size.
- If using with the dome nut on the back of a cupboard door, please be sure to allow extra length to fix the dome nut. Alternatively, a 6mm diameter machine screw can be used (brass slotted countersunk screws are preferred).
- If using as a hook, the bolt can be used with an appropriate wall plug.

CARE ADVICE:

- Our brassware is left unlacquered and so it is a living finish which will continue to age beautifully over time. We therefore don't recommend cleaning it with any products, but advise simply dusting it with a cloth or duster.
- If a brighter more polished look is desired, then we can recommend polishing up with Brasso as described on their packaging.

GENERAL INFO:

- Our brassware items are made by hand and so there may be variations and imperfections from piece to piece which are characteristic of hand made items.
- Please unpack your order within 24 hours of delivery. If you believe it was delivered damaged or faulty, you should inform us as soon as possible. If you fail to promptly inform us of any issues with your order this may result in you losing any remedy.
- All intellectual property rights in designs are owned by Beata Heuman Limited.

PRODUCT:	DESCRIPTION:	REVISION:
