

Uninterrupted fresh air.
You and your family's guardian.

Fresh Air, Anytime Anywhere

AIR CLEANER

Ultra-Nano-Platinum Particles
Water Ionic Air Cleaner

Enjoy comfortable fresh air in no time.

Fresh Air, Anytime Anywhere

Cannot stop loving it

First rate technology - Enjoy pure and healthy air is so simple.

Particle size of Nanoscale Platinum are 2 ~ 5 nm.
Larger particles not visible to naked eyes.
Achieved the best of incredible effect

Antiviral

Shizuoka University Department of Genetics and Genetics and Ritsumeikan University Faculty of Science and Engineering studies have shown that Ultra-Nano-Platinum particles can inactivate viruses.

Sterilization

With a negative potential, it actively attacks cell walls of germs/mold spores/Norovirus and catches hydrogen (H) atoms from them. The cells will be lack of water, as a result, germs are destroyed because they cannot duplicate.

Deodorization

Having a very strong Anti-oxidation capability, it can abstract oxygen atoms from the organic matter of the unpleasant odors to decompose them.

Safety

The sterilization is not an ionization effect. It is almost impossible to generate metal allergens. Safety evaluation test has confirmed its safety.

Moisturizing

Using deliquescence effect, collect water molecules from the air, and generate water vapor. Ultra-small molecules can be absorbed by the skin to keep moisture.

The operational principle

Using deliquescence effect, collect water molecules from the air, and generate water vapor. It is hydrox (OH) ions surrounded by with water molecules. The OH groups of Ultra-Nano-Platinum particles can extract Hydrogen(H) atom from bacteria, combine it to be water molecules, H₂O, and suppress bacteria activity.

Perfect at hand

Let fresh air surround you without any risks.

Clean air with you all the time

Always give you good air- lightweight, fashionable and portable

Eliminate PM2.5

It can absorb and break down PM2.5 from the air.

Allergens Suppression

Platinum nanoparticles are 5-20nm, only one billionth size of water molecule. It can deeply attach into fine fibers and cuticle, and cover allergens to suppress allergic particles as dust, pollen, louse corpses, frass and other harmful particles.

Harsh Chemical removal

It has a very strong anti-oxidation capacity; can absorb oxygen atoms from the organic matters of the odors to decompose them. Example: auto sound suppression materials/films/leather/plastic parts/mats/seat covers/Fumes from cleaning supplies and air fresheners/Preservatives and so on.

Moisturizing

Water ions generated by water molecules from air. The molecules are extremely small, can be absorbed by our skin, achieve the effect of moisturizing. It can be used in any environment.

Inhibit bacteria / Antiviral

It can attract bacteria and virus in the air, abstract hydrogen from them to form water molecules, and inhibit them.

Unpleasant odor removal

it can abstract oxygen atoms from the organic matter of the unpleasant odors to decompose them. This process generates water and eliminate unpleasant odors from pets, smoke, cooking, fish, etc.

Filter-free; money-saving energy-saving

Current consumption less than 50mA; does not require filters and other supplies; save your every penny.

Ultra-quiet design, no ozone

Ultra-quiet design is for use in car, at home and office. Not interfere with sleep. No ozone. Feel free to long time use.

Excellence in innovation

Willingness to challenge - Courage to innovate

We love you; Hope you healthier

榮譽專利

特許第5531074号
(第二代)PIN專利證明

中國發明專利
證書2297866

適用場所

Car/小客車

Bathroom/浴室

Kitchen/廚房

Bedroom/臥室

Study room/書房

Meeting room/會議室

Office/小辦公室

Applicable places/
各種六坪場所

Specification

Item	Air-2360/Black/White
Size	140x80x44mm
Weight	190g
Input Voltage	DC 5V
Applicable	6 Ping / 20 Square meters
Current consumption	Less than 50mA
Material	ABS+PC
Accessories	USB cigarette socket / USB cable
Operating temperature	-2°C~80°C
Environment humidity	35%up
Origin	Taiwan

We reserve the right to modify the design and specifications without notice in advance

Forest Breathe

Feel the beauty of life

Experience the wonderful movement
