OUR STORY

Delfast got its start as a delivery courier business. Our organic evolution to eBike manufacturer was solely driven by consumer demand for our dependable, high-powered electric bikes. Today, we are proud to be empowering the carbon-free movement worldwide.

THE DELFAST IMPACT

3,676,234 kg CO2 saved

That's the equivalent of almost 63 million seedlings grown for 10 years, or 26,000 acres of U.S. forests preserved.

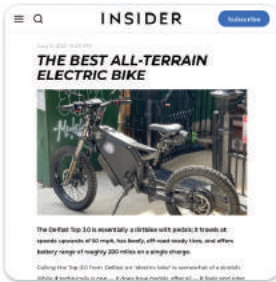

\$1,539,357.27 USD saved

The average American drives 13,500 miles/year. eBike riders who traveled that same distance on a Delfast bike spent only \$24/year.

THROUGH THE YEARS

- November 2014**
Delfast launched as a courier service
- February 2016**
Proprietary electronic bicycles developed to expand courier operations
- September 2017**
Full shift made toward eBike development
- November 2017**
Successful Kickstarter Campaign
- January 2018**
