

Delock PCI Express x4 Card > Hybrid 2 x internal M.2 + 2 x SATA 6 Gb/s with RAID – Low Profile Form Factor

Description

This PCI Express card by Delock expands the PC by two M.2 slots as well as two SATA connectors. Up to two M.2 modules in 22110, 2280, 2260, 2242 or 2230 format can be installed on this card and up to two SATA SSDs or HDDs can be connected. Therefore the card provides different possible combinations for RAID. The card supports a hyperduo function. With this function it combines an SSD and an HDD to use the advantages of both data mediums, the speed of an SSD and the capacity of an HDD.

Specification
