Another exciting week in comics has come and gone quicker than Quicksilver. There's so many geeky things going on, we're here to catch you up on all you might have missed!

A Note From Jayden

Another busy week in the books! We kicked this week off with a big Tuesday night upload, full of new releases, fillers, and of course, BIG KEYS! A handful of Marvel mainstays signed by Stan the Man, including an FF5, DD1, ASM 129 were amongst the highlights. For the Golden Age fans, we added a Superman 3 & 4 (1940) to our inventory as well! I've got lots of Silver ready for this evening, including a large run of X-Men!

Next week's new releases are HUGE and we are rapidly prepping bags & boards!

And if you didn't hear... we are giving away a double signed 1:1000 variant on SPAWN / BATMAN! All you have to do is pre order a copy to enter. Each copy pre ordered before the due date is one entry - any cover, no limit on entries! If you pre ordered before we announced this, you are automatically included!

Alright, back to my desk to wrap up tonight's fun. Cheers!
-Jayden

Netflix Drops Grendel

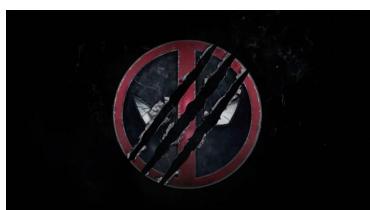

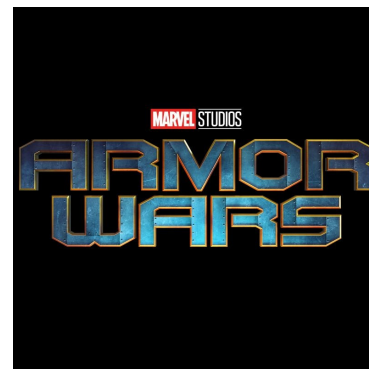

One year ago in one of the first CaptCan Weekly's we reported that Grendel was picked up by Netflix

for an adaptation. This week it was revealed that the project was no longer moving forward. No further information has been released, but the creative team is allowed to shop the project to other outlets.

Armour Wars Moves To Cinemas

THR reported earlier this week that Marvel's Armour Wars TV Series has been changed to a feature film, in an effort to tell the story "the right way". This is yet to be confirmed by Marvel Studios.

Deadpool 3 Announced

The Merc With A Mouth will return and debut in the MCU in September of 2024! Ryan Reynolds took to social media to make the announcement this week, and also surprised fans by revealing that Hugh Jackman would return to the role as Wolverine. Deadpool creator Rob Liefeld has shared his theory of a "road-trip inspired" movie.

Andor Easter Eggs

Star Wars Legends fans were spoiled this week with tons of Easter Eggs in the latest episode of Andor. In addition to Indiana Jones' whip frozen in carbonite, and a stone tablet resembling the world between worlds, fans also spotted some sith armour in the episode. The armour is very similar to that of Galen Marek, AKA Starkiller. The secret apprentice of Darth Vader from the Force Unleashed series. With Kenobi bringing Rahm Kota into canon a few months ago, could the return of Galen Marek to a galaxy far, far away be on the horizon?
