Original Chronofighter VE-Day model

Graham celebrates the 25th anniversary of its creation by reviving the Chronofighter VE-Day model. The VE-Day model was launched initially in 2005 to commemorate the 60<sup>th</sup> Anniversary of the landmark date. Today it is reedited to celebrate both the 75<sup>th</sup> Anniversary of VE-Day and the 25<sup>th</sup> Anniversary of the brand

CONTRÔLE OFFICIEL SUISSE  
DES CHRONOMÈTRES

C.O.S.C is the acronym standing for Contrôle Officiel Suisse des Chronomètres (Official Swiss Chronometer Testing Institute). The organization is responsible for the precision and accuracy of high-precision wristwatches made in Switzerland.

The movement performs a rigorous test program for 15 days at 3 temperatures: 8°, 23° 38°C.

The reaction and resistance of the movement are compiled on a daily basis.

When it meets the 7 criteria, the certificate is given:

- Average daily rate
- Rate resumption
- Mean variation in rates
- Largest variation in rates
- Greatest variation in rates
- Variation in rate depending on temperature
- The difference between rates in horizontal and vertical positions
