LED Technology

The No Sky Glow LED Corn Light Series is a Mogul corn light useful for various applications such as area lighting, pole lighting, wall sconces, and other decorative outdoor fixtures. The No Sky Glow technology illuminates your property while greatly reducing light pollution – keeping our night skies stary and beautiful. UV-free and mercury-free, E26/E39 LED Corn Lights are designed to allow for proper airflow, ensuring a long lifespan. Available in wattages ranging from 5W-300W, these corn lights are excellent replacements for incandescent bulbs.
