

Standard Square Steel Anchored Pole

LOT-POL-ST-1

Product Number	LOT-POL-ST-1
Material	Steel
Above Ground Height	10'-30'
Shaft Size	5.08"
Shaft Wall Thickness	11 gauge (4"x4")
Rated	Hurricane Rated
Type	Anchor Based
Other Features	Square
Made In	USA

Product Description

This Standard Square Steel Anchored Pole is a hurricane rated, contemporary style lighting pole built from high strength steel tube. Made in the USA, this pole conforms to ASTM-A 500 Grade B requirements with a minimum yield strength of 46,000 PSI. Complete with a two-piece base cover constructed from formed steel, anchor bolts, and a cast iron reinforced covered hand hole with ground screw, this versatile pole has mounting heights of 10 to 30 feet and is compatible with a variety of mounting options.
