NAVY PROFESSIONAL

BRITISH STANDARD TOOLING

With precision and hygiene being at the forefront of what we do our tools are all made to British Standards, hand finished by our team of craftsmen, and then coated using a high-specification PVD coating.

We follow the manufacturing process with 9 quality control steps and then we hand test each tool for the ultimate precision, creating the highest level of beauty tooling.

Our Story

Navy Professional is a British brand that has seen astronomical growth since its launch in late 2018. Specializing in manufacturing British standard professional-grade beauty tools and skincare products, the brand is committed to using only the finest materials and craftsmanship for all of its products. The range of manicure tools and skincare products is designed to meet the needs of professionals and beauty enthusiasts alike and is trending worldwide for both its aesthetics and quality.

One of the things that set Navy Professional apart is its commitment to using only vegan-friendly ingredients in its skincare products while also sourcing many of its skin ingredients locally. This means that consumers can enjoy the benefits of the luxurious skincare range, knowing that no animals were harmed in the process, and also support the local economy.

With a global reach that spans more than 100 countries worldwide, Navy Professional has become a firm favourite among beauty advocates and enthusiasts alike. Their celebrity fans include both A-list celebrities and world-renowned manicurists across the globe. With a focus on quality, innovation, and ethical production, Navy Professional is a brand that is making its mark in the world of beauty.

In May 2023, Navy Professional made a significant investment in acquiring its new Yorkshire-based headquarters (HQ). The HQ is a working farm in the heart of the region. With this move, the Navy is expanding its commitment to the local community and eco-friendly ambitions. The new HQ will offer a unique space for hosting a variety of events and workshops, providing a platform to showcase the brand's values and engage with its customers.

Navy Professional's community-led approach and dedication to sustainability will be on full display, making it an exciting destination for adoring consumers.

SKIN COLLECTION

Cuticle Balm

CUTICLE HYDRATION

Introducing you to our Cuticle Balm, enriched with Rosehip oil, Aloe Vera extract and Coconut Oil. Gently scented with our very own brand scent.

The formula was developed specifically for use on hands and nails to enhance nail growth and keep the skin hydrated and nourished.

Safe to use after Gel application, this product will not cause lifting or dullness.

Made in North Yorkshire by a small family run company.

Available in 15ml and 30ml

Hand Balm

SKIN CARE

Our rich, soothing Hand Balm is handmade in Yorkshire from a moisturising base of Coconut Oil, Shea Butter and Aloe Vera.

The product contains no added water and is therefore uniquely intense and long-lasting; a little bit will go a very long way!

It is ideal for retailing to your clients to soothe chapped or very dry skin

This Hand Balm is lightly fragranced with our signature mandarin and sandalwood scented oil and smelt most when warmed on the skin

Available in 60ml

Hand Care Duo

EXFOLIATING SOAP AND HAND CREAM

Introducing our NEW Navy Exfoliating Soap & Hand Cream Duo.

The perfect duo for home and salon use, our hand care system is the perfect addition to your hand care routine

Our New Exfoliating Soap & super luxurious Hand Cream are the perfect components for your hand-washing routine.

Made in Yorkshire

Available in 300ml
