

LINN DARA CHERRY ORCHARD HOSPITAL

DEKORGRIP RUBBER CRUMB

THE NEED:

A recent redevelopment of Cherry Orchard hospitals Child and Adolescent Mental Health facility was improving some of its external areas of the unit. As part of this a safe surface was required which also provided a stylish look, which accompanied the newly built area.

Training was also required as the contractors were previously inexperienced with the laying of a rubber bound surface.

SOLUTION:

DekorGrip were happy to not only provide a safe surface that would perfectly compliment the area and light green was selected. The DekorGrip team also offered training to the contractor who were laying rubber for the first time.

To ensure that the surface was laid to the DekorGrip hi standard, a team member visited the site several times to provide tips and ensure quality. DekorGrip were happy to not only provide a safe surface that would perfectly compliment the area and light green was selected. The DekorGrip team also offered training to the contractor who were laying rubber for the first time.

SUMMARY:

DekorGrip was proud to be selected as a supplier for the surface choice, supplying our rubber crumb solution. Installing over an area of 484M2 this provided not only a safe surface for all to enjoy but the colour chosen would fit perfectly into the environment.

SYSTEMS USED:

- DekorGrip Rubber Crumb solution
- Green
