

ARGOS DISTRIBUTION CENTRE

FACILITY MANAGEMENT

SITUATION:

One of the largest distribution companies in the UK, Argos, required a simple, fast, and efficient way of applying their facilities' surface markings. They found that they were using up large amounts of time and energy by applying all of their warehouse line markings by hand and required a more effective and cost efficient system.

SOLUTION:

The recently launched Graco LineLazer ES 1000 was perfect for meeting all the requirements that Argos had made. It provided a viable solution for both indoor and outdoor line markings. The use of ViaLine, with FP LinePrimer and ClearSeal ensured bright, durable, and long-lasting line markings. Meon, over the course of two days, provided product training for the staff for future use of the products involved.

SUMMARY:

The end result provided bright, clean line markings that are guaranteed to last a long time. Argos was thoroughly impressed with all products used and the quality of training they received, stating that they can already see an improvement in their visual standards. They are also now using the LineLazer ES 1000 for all of their future line marking jobs.

SYSTEMS USED:

- GRACO LineLazer ES 1000 - Electric Airless Line Stripper
- SPECTRUM ViaLine - Environmentally Friendly Toluene Free Lining Paint
- SPECTRUM FP LinePrimer - Fast Drying Concrete Primer
- SPECTRUM ClearSeal - Fast Drying Solvent Based PU Varnish
