

GRINDLAZER RC813 G

13HP ROTARY SCARIFIER

The Graco GrindLazer RC813 G is a rotary scarifier, ideal for line removal leaving no grooves in the substrate. The rotary action of this scarifier hovers over the surface, removing the marking whilst minimising damage to the substrate - making this the “no-groove line eraser.” The RC813 G can be linked up to the LazerVac system to reduce airborne silica dust.

FEATURES AND BENEFITS

- ‘No-groove’ line removal removes the effects of ‘ghost’ lines
- Advanced depth control system - improved control for perfect line removal
- Clean removal of surface markings
- Ideal for use with LazerVac system to remove airborne particles
