

LINELAZER V 200DC

DUAL COLOUR LINING MACHINE

The Graco LineLazer V 200DC machine is ideal for smaller dual colour jobs, simplifying the 2-colour application process. This machine can improve efficiency and profitability by eliminating the need for separate colour machines or changing colour in a machine, while spending less time refilling materials. Alternatively, it can be used for wide line applications to over 900mm wide. Compatible with LineDriver or LineDriver ES.

FEATURES & BENEFITS

- Compact solution ideal for smaller dual colour jobs
- Dual 45 litre hoppers reduce time refilling or changing colour
- Reflective series available for full pressurised bead setup

SERIES & KEY FEATURES:

1. STANDARD SERIES

Your jobs range from small to medium and you are using the machine for basic linemarking. You use single colour paint systems and only require standard guns.

- Option of battery powered machines
- AVRS - Advanced Vibration Reduction System
- EZ Align Front Wheel System
- EasyMark Gun Adjustment System
- LiveLook Display
- DualComfort Handle Bar System
- Second guns available
- Rear-gun Mount System
- Compatible with Graco LineDriver - optional

2. AUTOMATIC SERIES

Your jobs range from medium to large and require you to linemark new car parks, city streets, intersections and bike paths. You require a multi-gun, automatic system. Comes with the Standard edition features, plus...

- Quick Select Gun Selector (Manual, Automatic and Semi-Automatic)
- Auto-layout™
- Data logging with J-Log system
- Skip Line System

STABILITY FOR STRAIGHTER LINES

The industry best-balanced chassis. Compatible with LineDriver.

EASY GUN ADJUSTMENTS

EasyMark gun adjustment system provides perfect gun setup every time. Two gun capability with QuikSelect gun selector.

EASY HANDLEBAR ADJUSTMENT

DualComfort handlebar system is easy to adjust to fit all users.

DUAL COLOUR CAPABLE

Two units in one offer a large and flexible capacity. No need for constant colour changeover. No need for separate colour machines.

3. HP REFLECTIVE SERIES

Your jobs range from medium to large and require you to linemark airports, large roadway and city projects. You require a multi-gun, automatic system with pressurized bead system. Comes with the Standard & Automatic edition features, plus...

PRESSURIZED BEAD SYSTEM

- On-board compressor
- Pressurized bead tank
- Bead gun activates automatically with spray gun
- Bead gun with gun-delay ability
- Adjustable nozzle for bead dispensing width adjustment
- Interchangeable nozzles to allow for different size beads or grain

IDEAL FOR USE IN:

- Airports
- Roads
- Car parks
- High volume and dual colour applications

LESS REFILLING

Large, dual 45 litre hoppers.

UNINTERRUPTED PERFORMANCE

Dual hydraulic motors with proven no-stall design.

REAL-TIME JOB PERFORMANCE DATA

LiveLook display with SmartControl which tracks all aspects of your job.

PRESSURISED BEAD SYSTEM

Pressurised bead application delivers high quality reflective markings.
