

MIGHTYLINE

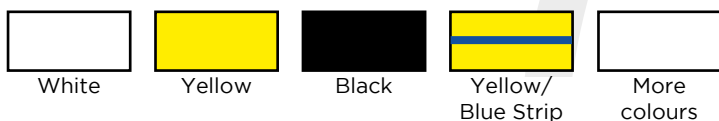

HEAVY DUTY LINEMARKING TAPE

The patented MightyLine solid colour floor tapes are great for marking certain areas in your warehouse. Use our MightyLine safety floor tape for marking certain hazards, safety precautions, aisle ways and other areas. MightyLine floor tapes are great for industrial warehouses and facilities, hospitals, oil and gas facilities, and other floor marking areas. The patented MightyLine floor tape has a peel and stick adhesive and removes cleanly upon removal.

FEATURES AND BENEFITS

- Rapid install
- Durable thick finish
- No drying time
- No contamination issues with pharmaceutical or food produce
- No production down time
- Easily removed if required

PREPARATION:

SURFACE PREPARATION:

Ensure the area which will have the line applied to is clean and dry. A quick test is to apply a 150mm sample to the desired surface and remove. Check the adhesive side of the sample for level of contamination on the surface. The ambient temperature should also be above 12°C.

APPLICATION:

Establish a line parallel to the desired line location - often laser lines are used. Remove backing strip from roll of MightyLine whilst being installed, and ensure pressure is put on MightyLine to get full adhesion and work out any air bubbles as you go. An applicator can be used for easy application if required.

AFTERCARE AND MAINTENANCE:

MightyLine can be washed with water and mild detergent as required.

STORAGE AND PACKAGING:

STORAGE CONDITIONS:

Storage area should be dry, protected from direct sunlight and extremes of temperature - i.e. between 5°C & 20°C.

SHELF LIFE:

6 months when stored under cover, in original unopened containers, in accordance with Storage Condition guidelines listed above.

SIZES AVAILABLE:

50mm and 100mm wide rolls x 30m long. Other widths to order.

HEALTH AND SAFETY:

Familiarise yourself with the material safety data sheets before using this product. If you need a copy please call our technical team on **023 9220 0606**.
