

TRAINING ACADEMY

GRACO LINELAZERS - BEGINNERS

COURSE OVERVIEW:

This MEON accredited course will give you the knowledge and confidence to have the required skills to use our specialised LineLaser machines. This covers the required health and safety of each machine and a detailed overview of how to operate the machine. The course is designed to develop your technical knowledge, practical application and implementation of the products used alongside the machine. You will also have a chance to demonstrate your acquired knowledge and will be able to give a thorough explanation of how to clean and maintain the machine so it stays at top quality condition.

KEY LEARNING AREAS:

- Health & safety when using these machines
- Overview of how the machine works
- Explain what each of the controls does
- Demonstrate how spray tips are assembled and how to choose the correct tip for the project
- Prime the LineLaser ready to spray and set gun up
- Spray lines with the LineLaser
- Cleaning and maintenance of the LineLaser
