

TRAINING ACADEMY

GRACO LAZERGUIDES

COURSE OVERVIEW:

This MEON accredited course will help you understand the differences between the LazerGuide 1700 and 2000 series, whilst also learning the health and safety required when using the equipment. An important part of this module is how the LazerGuide is set up for specific machines, as it is very technical process. This will allow for reduced labour time and precise linemarking. You will have the opportunity to demonstrate your knowledge and put your skills to the test.

KEY LEARNING AREAS:

- Health and safety of using lasers
- Explain the difference (if applicable) between the 1700 and 2000 and what they are each used for
- Demonstrate how they are each set up
- Spray lines with the LineLazer fitted with the LazerGuide

1-2 hours
