

TRAINING ACADEMY

CPD Training Session Modules

GROUP.A - LINEMARKING & SURFACE PREPARATION:

1. What can influence change in line marking requirements?
2. Whole-life Cost Reduction Modelling.
3. How does performance of lines impact road user safety?
4. Reducing carbon emissions without compromising performance.
5. Contrast markings for concrete roads.
6. Glass beads are a key component of any effective system.
7. Understanding the importance of adequate surface preparation.
8. Level-crossing marking systems.
9. Construction zone temporary markings.
10. Micro plastics pollution.

GROUP.B - SURFACE COATINGS:

1. The impact of coating over new asphalt too quickly and can this be overcome?
2. HFS systems and how to minimise failures.
3. Understanding the primary function of a surface coating.

GROUP.C - REPAIRS AND REINSTATEMENT:

1. Why do pothole repairs have a tendency to require further interventions within 12 months?
2. Where can preventative measures be taken to reduce repair costs?
3. Failures around ironworks is common, why and can this be reduced?
4. Reducing the long-term impact of surveyor markings.
