Cannot believe how AMAZING the after sales service is with TAPP Water Malta. You are raising the bar way too high for other business to follow. Keep up the excellent work Phil and Annalena.

Same here I had a problem and they fixed it immediately . Replaced a faulty tapp attachment without charge. Highly recommended.

How do you find their water? Taste and is it hard?

**Josephine Cassar** not at all! They even have a guarantee back period of them, if you don't like it, you get your money back! If you'd be interested I have a discount code which you may use 😊 I've been their client for a while and just love how easy and convenient it is

**Josephine Cassar** no, they almost fit all taps. If it doesn't fit, they also send you a faucet adjuster for free.

Couldn't agree more. They went out of their way to find the perfect solution for my tap. The water is better than the bottled one too. Best decision ever to switch to **TAPP Water Malta**. No more plastic bottles around the house finally.
