

IMPERIAL INFUSIONS

Candle Care Tips

- Always burn your candle on a level, heat-resistant surface.
- Trim the wick to 1/4 inch before each burn.
- Allow the wax to melt evenly all the way to the edges of the container before extinguishing the candle.
- Never burn a candle for more than 4 hours at a time.
- Let the candle cool completely before relighting.
- Keep candles out of reach of children and pets.
- Do not burn a candle near flammable materials.
- Extinguish candles before leaving the room or going to sleep.

Additional Tips

- For best results, store your candles in a cool, dry place.
- Avoid placing candles in direct sunlight or near drafts.
- If your candle develops a "tunnel" in the wax, simply reheat the wax by burning the candle for a longer period of time.
- If your candle starts to smoke, extinguish it immediately and allow it to cool completely before relighting.

Safety Precautions

- Never burn a candle on or near anything that could catch fire.
- Keep candles away from curtains, bedding, and other flammable materials.
- Never leave a burning candle unattended.
- Extinguish candles before going to sleep or leaving the room.

That's it, enjoy your candles!

Thank you for choosing Imperial Infusions
