BROW LAMINATION INSTRUCTIONS

- 1. Clean brows and brow area with GladGirl Wash & Wink or your favorite oil-free makeup cleanser. Apply cleanser with included white-tip, flocking brush or flat cotton pads. Rinse with water and pat dry.
- 2. (Optional Step) Apply the, Fixing Glue #1, to the brow and comb through, upwards into the desired shape with either the black mascara wands or the fine tooth comb.
- 3. Apply the, Lift Lotion #2, to each brow directly on the brow hairs with the white-tip, flocking brush or a micro-brush included. With a mascara wand, brush brows upwards and direct brow hairs into desired position. Take care to not get Lift Lotion on surrounding skin. For average thickness brow hairs, allow lotion to stay on 3-4 minutes. For thicker brows allow, 5-6 minutes.
- 4. Remove Lift Lotion #2 from brows with a dampened cotton swab.
- 5. Apply Lock Lotion #3 directly onto each brow with a microbrush. Brush brows into desired shape and position with a clean mascara brush. Take care to not get Lock Lotion on surrounding skin. For average thickness brow hairs, allow lotion to stay on 3-4 minutes. For thicker brows allow, 5-6 minutes.
- 6. Using a dampened cotton swab, remove all lotions until brows are residue-free.

After Care: Wait 48 hours before getting eyebrows wet. Apply a brow serum daily to maintain shape, support healthy growth and extend duration of the lamination treatment. A mascara wand should be used to maintain the desired shape.
