**Pro Tips:** Confirm with your client that they are not allergic to hair perming products. Do a patch test if necessary. The product should be stored in a cool, dark place. It is advised that treatment is carried out in a well ventilated room. Do not over process. Always use a timer - do not guess. Use within 6 months of opening. Take special care not to let any of the lotions get on the skin around the eyebrows.

**Optional add on services include:** brow tinting, tweezing, threading or the GladGirl Keratin Boost.
