This is a cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. Additional information on toxicological endpoints is available from the supplier upon request.

Potential health effects:

- Eye: Contact with this product may cause slight irritation to the eyes.
- Skin: Not expected to be irritating, sensitizing, photo allergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient.
- Inhalation: Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated.
- Ingestion: Product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.

Section 4 – First Aid Measures

Description of first aid measures:

In case of skin contact: Wash with plenty of water and soap.

In case of eyes contact: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

In case of Ingestion: Do not under any circumstances induce vomiting. OBTAIN A MEDICAL EXAMINATION IMMEDIATELY.

In case of Inhalation: Remove casualty to fresh air and keep warm and at rest.

Most important symptoms and effects, both acute and delayed: No data available
Indication of any immediate medical attention and special treatment needed: No data available

Section 5 – Fire-Fighting Measures

Extinguishing Media: Use dry chemical, carbon dioxide, foam or spray as appropriate for surrounding fire.

Fire-Fighting Instructions: Do not enter any enclosed or confined fire space without full protective equipment, including self-contained breathing apparatus to protect against the hazardous effects of combustion products and oxygen deficiency.

Section 6 – Accidental Release Measures

General Information: Use proper personal protective equipment as indicated in Section 8

Spills/Leaks: Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. Clean up spills immediately, observing precautions in the Protective Equipment section. Provide ventilation.

Section 7 – Handling and Storage

Handling Precautions: Keep away from heat, spark and flame. Wash thoroughly after handling. Avoid skin or eye contact. Avoid prolonged or repeated breathing of vapors and mists. If spilled on clothing, launder before reuse. Do not take internally. Use only in a well-ventilated area. Keep out of the reach of children.

Storage Requirements: Keep container closed when not in use. Store in a cool, dry, well-ventilated area away from incompatible substances. Keep containers tightly closed. Do not get in eyes, on skin or on clothing. Monomer vapors can evolve with material if heated. Containers, even those that have been emptied, will retain product residue vapors and are subject to proper waste disposal, as above.

Conditions for safe storage, including any incompatibilities: Protect from freezing. Sensitive to cold from 0 ° C. Keep away from food, drink and feed.

Incompatible materials: None in particular.
