

Material Safety Data Sheet

LASHLOCK LATEX FREE ADHESIVE

Section 1 – Chemical Product and Company Identification

MSDS Name: LASHLOCK LATEX FREE ADHESIVE

Recommended use of the substance/mixture: Lash Adhesive (For external use only)

Company Identification: Glad Lash Inc.

Address: 19201 Parthenia Street, Suite G, Northridge, CA, 91324, United States of America

Phone: 888-688-9621

Section 2 – Composition, Information on Ingredients

Component	CAS #	% by Weight (approximate)
Acrylates/Ethylhexyl Acrylate Copolymer	N/A	< 95%
Purified water	7732 -18 -5	> 5%
Phenoxyethanol	122 -99 -6	> 0.5%

Section 3 – Hazards Identification

Classification of the substance or mixture:

Directive criteria, 67/548/CE, 99/45/EC and following amendments thereof:

Properties / Symbols: None.

Adverse physicochemical, human health and environmental effects: No other hazards known.

Label elements:

The preparation should not be considered as dangerous accordingly to dir. 1999/45/EC.

Special provisions according to Annex XVII of REACH and subsequent amendments: None

Other hazards:

vPvB Substances: None - PBT Substances: None

Other Hazards: No other hazards known.

Section 4 – First Aid Measures

Description of first aid measures:

In case of skin contact: Wash with plenty of water and soap.

In case of eyes contact: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

In case of Ingestion: Do not under any circumstances induce vomiting. OBTAIN A MEDICAL EXAMINATION IMMEDIATELY.

In case of Inhalation: Remove casualty to fresh air and keep warm and at rest.

Most important symptoms and effects, both acute and delayed: None

Indication of any immediate medical attention and special treatment needed: None

Section 5 – Fire-Fighting Measures

Extinguishing Media: Use dry chemical, carbon dioxide, foam or spray as appropriate for surrounding fire.

Fire-Fighting Instructions: Do not enter any enclosed or confined fire space without full protective equipment, including self-contained breathing apparatus to protect against the hazardous effects of combustion products and oxygen deficiency.

Section 6 – Accidental Release Measures

General Information: Use proper personal protective equipment as indicated in Section 8

Spills/Leaks: Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. Clean up spills immediately, observing precautions in the Protective Equipment section. Provide ventilation.

Section 7 – Handling and Storage

Handling Precautions: Keep away from heat, spark and flame. Wash thoroughly after handling. Avoid skin or eye contact. Avoid prolonged or repeated breathing of vapors and mists. If spilled on clothing, launder before reuse. Do not take internally. Use only in a well-ventilated area. Keep out of the reach of children.

Storage Requirements: Keep container closed when not in use. Store in a cool, dry, well-ventilated area away from incompatible substances. Keep containers tightly closed. Do not get in eyes, on skin or on clothing. Monomer vapors can evolve with material if heated. Containers, even those that have been emptied, will retain product residue vapors and are subject to proper waste disposal, as above.

Conditions for safe storage, including any incompatibilities: Protect from freezing. Sensitive to cold from 0 ° C. Keep away from food, drink and feed.

Incompatible materials: None in particular.

Section 8 – Exposure Controls / Personal Protection

Control parameters: No occupational exposure limit available

DNEL Exposure Limit Values: N/A

PNEC Exposure Limit Values: N/A

Exposure controls:

Eye protection: Not needed for normal use. Anyway, operate according good working practices.

Protection for skin: No special precaution must be adopted for normal use.

Protection for hands: Not needed for normal use.

Respiratory protection: Not needed for normal use.

Thermal Hazards: None

Environmental exposure controls: The emissions from ventilation or work process equipment should be checked to ensure compliance with the directives of the binding legislation on environmental protection. In some cases, to reduce emissions, might be needed maintenance or technical plant modifications.

Section 9 – Physical and Chemical Properties

Physical State	Liquid
Color	Black
Odor	Characteristic
pH	8.00-9.00
Viscosity	200-700 cps
Boiling Point	100C
Solubility in Water	Completely Miscible
Melting Point/Freezing Point	0°C (Frost) Water
Upper/Lower Flammability or Explosive Limits	N/A
Vapor Density/Evaporation Rate	ND
Solubility in Oil	ND
Decomposition Temperature	ND
Explosive Properties	Not Relevant
Oxidizing Properties	Not Relevant
Solids Content	53 %

Section 10 – Stability and Reactivity

Reactivity: Stable under normal conditions

Chemical stability: Stable under normal conditions

Possibility of hazardous reactions: None known.

Conditions to avoid: Stable under normal conditions.

Incompatible materials: None in particular.

Hazardous decomposition products

When heated (decomposition) or in case of fire may liberate carbon oxides, gases and vapors which are dangerous to health.

Section 11 – Toxicological Information

Carcinogenicity: No information available.

IARC: No information available.

Epidemiology: No information available.

Teratogenicity: No information available.

Reproductive Effects: No information available

Neurotoxicity: No information available

Mutagenicity: No information available

Other Studies: None reported.

Section 12 – Ecological Information

Toxicity: Adopt good working practices, so that the product is not released into the environment.

Persistence and degradability: None known.

Biodegradability: This property is specific for substance and cannot be indicated for mixtures.

Biodegradability: Latex. BOD 20 for experimental latexes is below the detection limits of the instrument. This product has no significant ecological problem for water / soil. Ecotox: low toxicity to fish LC50 > 100mg / l, 96h. - Test: N.A. - Duration: N.A. - %: N.A. - Notes: N.A.

Biodegradability: Non-rapidly degradable - Test: N.A. - Duration: N.A. - %: N.A. - Notes: N.A.

Bioaccumulative potential:

Bioaccumulation: Latex dispersions: No bioconcentration of the polymeric component is expected because of its high molecular weight. Latex dispersions will color water a milky white. - Test: N.A. N.A. - Duration: N.A. - Notes: N.A.

Mobility in soil: Mobile - Test: N.A. N.A. - Duration: N.A. - Notes: N.A.

Results of PBT and vPvB assessment: vPvB Substances: None - PBT Substances: None

Other adverse effects: None

Section 13 – Disposal Consideration

Disposal: Dispose of unused product or contaminated product and materials used in cleaning up spills or leaks in a manner approved for this material. Consult appropriate federal, state and local regulatory agencies to ascertain proper disposal procedures.

Section 14 – Transport Information

UN number: Not classified as dangerous in the meaning of transport regulations.

UN proper shipping name: N.A.

Transport hazard class (es): N.A.

Packing group: N.A.

Environmental hazards: N.A.

Special precautions for user: N.A.

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code: N.A

Section 15 – Regulatory Information

CA Proportion 65: No California proposition 65 chemicals are known to be present.

Safety, health and environmental regulations/legislation specific for the substance or mixture

Dir. 67/548/EEC (Classification, packaging and labelling of dangerous substances)

Dir. 99/45/EC (Classification, packaging and labelling of dangerous preparations)

Dir. 98/24/EC (Risks related to chemical agents at work)

Dir. 2000/39/EC (Occupational exposure limit values)

Dir. 2006/8/EC

Regulation (EC) n. 1907/2006 (REACH)

Regulation (EC) n. 1272/2008 (CLP)

Regulation (EC) n. 790/2009 (ATP 1 CLP)

Regulation (EU) n. 453/2010 (Annex I)

Restrictions related to the product or the substances contained according to Annex XVII Regulation (EC) 1907/2006 (REACH) and subsequent modifications: None

Where applicable, refer to the following regulatory provisions:

Directive 82/501/EEC ('Activities linked to risks of serious accidents') and subsequent amendments.

Regulation (EC) nr 648/2004 (detergents).

1999/13/EC (VOC directive)

Chemical safety assessment: No

Section 16 – Other Information

Material safety data sheet on voluntary basis.

Basically the product is non-hazardous. A MSDS is not mandatory required. We provide on voluntary basis a data sheet according to REACH regulation 1907/2006.

This safety data sheet has been completely updated in compliance to Regulation 453/2010/EU.

The information contained herein is based upon data and information available to us, and reflects our best professional judgment, but is offered without guarantee or warranty. Neither our company nor any subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. All materials may present unknown. This information is furnished upon the condition that the person receiving it shall make their own determination of the suitability of the material for their particular use.
