MISSION STATEMENT

Silver Suspensions was created in the 1980's when everything was big, fun & colorful. All my work was architecturally inspired with bold geometric shapes and movement throughout. You can still see the influences in today's jewelry. We love the light-hearted designs. Our unconventional design techniques, semi-precious stone beads combined with recycled nickel-free sterling silver are cost conscious and affordable everyday designs.

Haylo Brand is *Inspired jewelry to awaken your soul*. Influenced by nature, wildlife and the beauty that surrounds us. I hand select the stones & cabochons and strive to purchase only ethically-mined and artisan-cut stones. My goal is to purchase as close to the source as possible and cut by local lapidary artists. I seek American mined collector grade turquoises from obsolete mines. We create small batches with these hand picked stones. One-of-a-kind jewelry for the most discerning collectors.
