68 LITRE STACK/NEST CONTAINER

These containers are manufactured using food approved virgin polypropylene material. They are ideal for RTP - Return Transit Packaging solutions as they stack positively on the rods when in use and then save space when nested. These heavy duty containers are very strong and robust so suitable for commercial and industrial applications.

Manufactured to a standard euro size of 600mm x 400mm these are designed to interwork with euro dollies and euro size pallets for a fully integrated storage and distribution system.

Optional personalisation includes die-stamping and printed logos or text.
