M716SN Stack & Nest Box

49.5 LITRE BALE ARM BOX

60 x 8mm slots in sides, 10mm drainage holes in base. Bale arm containers are robust and easy-to-handle. They are extremely popular, especially in grocery delivery services. The perforated design is ideal for the storage of fresh food products, though they can be used for many different goods across the sectors, including in temperature-controlled environments.

The bale arm makes the containers easy to stack and nest for safe, space-saving storage either in warehouses or as return trip packaging. Hand holes ensure that even the largest sized container can be lifted safely.
