## R1054 - GRIT & SALT BIN

400 LITRE CAPACITY

The R1054 is our largest grit bin, made of tough Polyethylene with robust plastic hinges and is UV light stabilised to prevent fading. The double skin lid provides greater strength and protection.

It is ideal for storing grit or salt on both residential and commercial premises and has a wide opening for easy access. Rain channels keep contents dry and the angled lid ensures snow, rain and ice does not settle on top of the bin.

### FEATURES:

- Integral forklift channels
