R116g PALLET TANK (ML54)

108g LITRE CAPACITY

Large pallet tanks are ideally suited to heavy-duty use. Made of food-grade MDPE. They have four-way entry and a solid base and sides.

They are designed to nest when not in use to save on valuable storage and transport space.

FEATURES:

- Nesting pallet tank
- Heavy-duty
- Food approved
- Easy to clean

COLOUR OPTIONS:

Alternative colours are available subject to MOQ.

Model no:	R116g
Ext dimensions:	1220 x 1040 x 1200mm
Internal dimensions:	1100 x 920mm internally at the top
Wall thickness:	Typically 6-7mm
Material:	Medium Density Polyethylene. Microlin ML54. Please see separate Micropol technical data sheet.
Capacity:	108g Litres
Transportation:	24 stacks of 3 units nested together per 40ft container.
Shelf life:	Dependent on individual applications and use. Similar mouldings in the same material are still performing satisfactorily after more than 20 years of service. Any potential Health and Safety, environmental and food regulation issues must be assessed on an ongoing basis based on individual applications.
Compressive strength:	The R116g tank has been designed to nest for transport purposes. Each unit can comfortably hold two others nested into it. Other rotationally moulded tanks in the same ML54 material specifically designed to stack on top of each other, can carry a load in excess of 1000kgs. The attached Microlin ML54 data sheet gives further details on the material specifications.

CAPACITY:	108g Litres
MATERIAL:	MDPE - ML54
OVERALL WEIGHT	54.0Kg
