## X402 Kleena-Stack

Part of the interstacking range of containers including lids and dollies

This heavy duty Kleena-Stack container is primarily designed to suit applications where hygiene is paramount, such as the food and pharmaceutical industries.

Kleena-Stack features smooth internal and external surfaces and wide radius corners for easy cleaning. Manufactured from virgin MDPE material which is suitable for direct food contact, Kleena-Stack is also very durable and able to withstand a wide range of temperatures from -30°C to +80°C. It is inert to many chemicals so will not be damaged by contents or cleaning products.

### FEATURES:
