

# INSTALL MANUAL

## BluStream FM - ISBT43 Rev B

### Initial Setup

BluStream FM is an easy to use, Bluetooth hands-free calling and audio streaming solution for your vehicle, using your car's FM radio.

**NOTE:** Make sure you are parked in a safe spot before installation and whenever you are pairing your device. **NEVER WHILE DRIVING.**

### What you will need for this install:

- Smartphone with Bluetooth
- 12V power outlet (your vehicle's cigarette lighter port)
- FM car radio

### What's in the box!

## DIY Install Instructions

**Step 1.** Mount your BluStream FM module (a) with the included adhesive tape

**Step 2.** BluStream FM needs a little power to rock your world, so plug the FM transmitter (b) into your 12V power outlet (cigarette port)

### Pairing your phone:

- Ensure your smartphone's Bluetooth is on
- Select "ISBT43R" from your phone's Bluetooth list and select "Connect" (No Pairing Code is Required)

### Setting the radio station (up to 3 presets can be stored)

- Using the left and right buttons on the FM transmitter, scroll through your radio channels until you find the station with the clearest reception (make sure it is one not currently being used).
- Tune your car's FM radio to the frequency that matches the selected station on the BluStream FM transmitter screen (b)

**Note:** if you pause on a station for longer than 5 seconds, it will be stored as a preset

### USB Charging Port

BluStream FM features a 5 volt 2.4A charging port which can be used to charge your smartphone, or other device (charging cable not included).

**Did You Know:** BluStream FM can pair up to 5 devices in its memory, and connect to 2 devices simultaneously!

# HOW TO USE

## What's in the box!

## Calling Instructions

**To answer incoming calls:** Press the BluStream FM center control button (a) once

**To end calls:** Press the BluStream FM center control button (a) once

**To redial last call:** Press the BluStream FM center control button (a) twice (can only do this when not in music playback mode)

## Audio Control Instructions

**Play/Pause:** Press the BluStream FM center control button (a) once

**Skip to the next track:** Press the BluStream FM center control button (a) twice

**To enter Siri or Google mode:** Press and hold the BlueStream FM center control button (a) until you hear a beep, then release button. If already streaming music, saying "Hey Siri" or "OK Google" will activate, depending on your phone's settings.

## Cable Management

**Step 1.** Slide the back cover on module (a) up to remove it

**Step 2.** Remove the cable from under the tab and start winding clockwise around the center

**Step 3.** Tuck the cable back under the tab when you are finished

**Step 4.** Replace the back cover

### WARNING:

This equipment may be reset by unintentional electrostatic discharge during operation. Exposure to direct sunlight or extreme heat may cause damage or malfunction. FCC Class B Radio Frequency Interference Statement This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Re-orientate or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that of which the receiver is connected.
4. Consult the dealer or an experienced radio / television technical for help.

Notice : The changes or modifications not expressly approved by the party responsible compliance could void the user authority to operate the equipment.

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.
