

# LP355

## Focusing LED Headlamp with Red Rear Safety Light

### Features

- Durable textured ABS compact design, rubberized armor
- LPE Optics
- Dual button operation
- Non-slip adjustable dual strap headband
- Spot to flood 90° adjustable head
- Rear battery pack with safety light

### Operation Instructions

- Spot On/Off & Cycling Modes: Press button located on top of main headlamp body (High/Medium/Low)
- Red Safety Beacon On/Off & Cycling Modes: Press button located on top of battery pack (Steady/Strobe)

### Usage and Maintenance

**Battery Replacement:** In a dry environment, locate the plastic tab along the bottom of the battery housing. Gently, push tab outward using your thumb. The battery cover will pop loose and separate from the battery housing. Remove batteries. Insert new batteries into the designated battery positions, following the symbols to properly arrange batteries. To reinstall the battery cover, gently press the battery housing and battery cover together. Check that a proper seal has been made by firmly holding the housing in one hand and gently pulling against the battery cover with the other hand.

**Care Instructions:** If you know it's going to be a while between uses, we suggest removing batteries from your light and storing your gear in a dry, protected place.

### Product Warranty

Limited 90-Day Warranty against manufacturer's defects from time of purchase. For warranty claims contact LuxPro by calling 801-553-8886 or sending an email to [info@simpleproducts.com](mailto:info@simpleproducts.com).

**3** AA Batteries
