

STRAPLESS

LATEX FREE

COMFORTABLE

STRINGLESS FACE COVERINGS NOW AVAILABLE

For your comfort and to minimize the frequency of contacts with your mask we now offer disposable adhesive face masks to wear while receiving service.

These masks are attached with a hypoallergenic skin safe adhesive. If you've got skin sensitivities you should either avoid wearing a SAM (Self Adhesive Mask) or first, ask us for a complimentary test patch to take home and try in an inconspicuous spot before your next visit.

Benefits for You:

- The mask won't slide down, so you won't need to keep adjusting it
- We won't ask you to lift loops or hold your face covering
- Zero chance of mess or damage to your own mask
- Your hair won't fall inside and itch
- You'll breathe easier without loops pulling from ear to ear and applying pressure on your nose.

Benefits for Us:

- We can work around your ears faster and better
- Your breath goes through the mask instead of out the gaps
- We won't see your nose peeking out
- Less mess to tidy when colorizing
- We don't have to touch your loops or ask you to handle your mask
- No risk of cutting a string!

For Best Results: Use on Clean Dry Skin. Press firmly. Remove Slowly & Gently
