GRENADIER // SERIES II

FITS INEOS GRENADIER

CHELSEATRUCKCOMPANY.COM

// INTRODUCTION :

GRENAADIER

When INEOS launched the Grenadier in 2023, it quickly garnered a loyal following by filling the void left by the New Defender, appealing to both utilitarian off-road enthusiasts and affluent car fans seeking a stylish yet functional vehicle. However, we at CTC felt that, while the Grenadier excelled in capability, its design remained somewhat basic and lacked the refinement many owners desired, particularly for those not intending to take their new truck off-road.

SERIES II CONVERSION

Recognising this opportunity, we set out to bring the Defender's iconic design language into the modern era, drawing from our extensive experience and history of customising classic Land Rovers for over a decade, we have seamlessly blended these traditional elements with the Grenadier's contemporary yet timeless silhouette. Following on from our current retail offerings for the vehicle, this range of exclusive tailor-made conversions for the INEOS offer a truly elevated and sophisticated experience. Welcome to the Chelsea Truck Company Grenadier by **KAHN®**.

T H E SERIES II C O N V E R S I O N
