

STEEL TRANSFER TANKS

STRENGTH

REINFORCED WITH 12 GAUGE STEEL*

DURABILITY

ISOLATION MOUNTING
REDUCES ROAD VIBRATION

PERFORMANCE

C-CHANNEL NECK SUPPORT FOR
TROUBLE-FREE OPERATION

*Except 359 model does not require reinforcement for optimal performance

STEEL TRANSFER TANKS

Internal C-Channel neck design provides durable support for filling and pumping

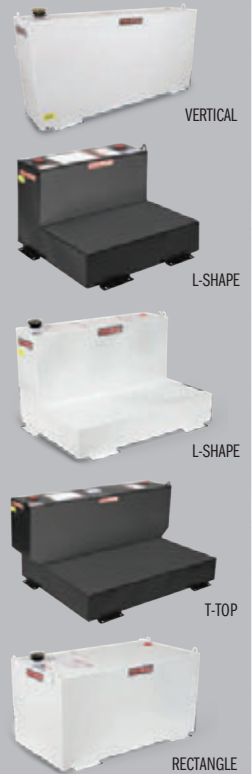

Overlapping corner & edge panels add strength and stability

12 Gauge Steel used on front, bottom and back panels provide exceptional strength*

Welded internal baffles control fluid motion to minimize tank movement

Patented Rubber Isolation Mounts absorb road vibration for longer tank life

AVAILABLE TANK CONFIGURATIONS

FEATURES

- Heavy-duty tank design for commercial product use
- Interior baffles minimize fluid motion for extended tank life
- Vented filler cap prevents pressure build-up and is lockable
- Rubber isolation mounts absorb road vibration to protect the tank
- 3/8 in. drain port is provided for routine maintenance
- 2 in. standard NPT thread (National pipe thread) accommodates most pumps

CONSTRUCTION

- Heavy-duty 12 Gauge Steel panels* deliver optimum strength in key areas
- Overlapping edge panel design provides superior corner support
- Reinforced filler neck for filling and pumping approved fluids
- ARMOR-TUF® Powder Coat ensures a lasting surface finish
- Dual quality inspections performed on all tanks prior to shipping

! Weather Guard® Transfer Tanks can **ONLY** be used with non-flammable fluids (Diesel, Hydraulic, etc.). They are **NOT** designed for use as an auxiliary tank to be connected to your vehicle's primary fuel system.

TRANSFER TANK SPECIFICATIONS

Model	Tank Type	Capacity	Color	Length	Width	Height	Weight	UPC
350-3-02	L-Shape	50 gals.	White	32.25 in.	30 in.	22 in.	122 lbs.	783965060233
