

# NEW RECESSED CEILING MOUNTS

## LARGE CELLARS

### 3000, 4000, 6000, 8000 Scmr-EC Series

This system uses a ceiling mount evaporator for recessed mounting between ceiling studs to provide maximum wall space for wine racking and bottle storage. All ceiling-mount units include our remote display and an integrated condensate pump as standard equipment.

**Dedicated Circuit:  
115V/1Ph/60Hz
