Why FurBall®?

Reduce Fur, Lint & Debris

Fur on clothing can be a time-consuming pain point for pet parents, having to spend extra time with a lint roller or other manual cleaners. Thanks to FurBall®, fur removal is hands free and can be done from the comfort of the washer and dryer to keep pet parent laundry furless!

Prevents Damage to Clothing

Gentle enough for furbaby delicates, our proprietary RSX™ material is soft with a smooth texture to be gentle on clothing and not cause wear and tear, instead working to revive fabrics with its material and shape.

Prevents Wrinkles and Static

Besides just fur removal, FurBall® can help reduce wrinkles and static by separating wet laundry in the dryer, and gently “beats” out all potential wrinkles. Our proprietary RSX™ material neutralizes the potential static charges of fur and lint on laundry as well as laundry items clinging together.

Get Laundry Done More Effitiently

Thanks to the patent-pending design of FurBall®, and the separation of laundry in the dryer, it allows warm air to dry clothes quickly and efficiently. This can reduce the drying time needed by 15-25%, saving pet parents time, energy, and ultimately money!

How it Works

Toss a FurBall® (or two!) into your washer or dryer

FurBall® acts as an agitator and scrubs clothing in the washer to loosen fur and debris

FurBall® gently beats clothing in the dryer to separate clothing, prevent wrinkles and static, and most importantly remove fur

Fur is caught in the lint trap of the dryer!
